

## TAFT WINS CUBANS' HEARTS

While Marines Landed to Give force to Governor's Position He Spoke Cheery Words.

MRS. TAFT WILL GO TO HAVANA SOON

Army and Navy Preparations Go Steadily On In Readiness for What May Happen—Roosevelt Busy.

HAVANA, Oct. 1.—Governor Taft's name today has gone far to win him a home place in the hearts of the people whose destinies have been placed in his hands.

Presiding this morning at the opening exercises of the University of Havana, he declared his mission here was solely for the purpose of uplifting the fallen republic and restoring it to the path of prosperity, an announcement received with demonstrations of delight by an audience representative of the highest society in Havana.

Following this, it became known that Governor Taft and Assistant Secretary of State Bacon had enlisted for their wives to join them here, a step which cannot but be most agreeable to the Cuban people and which will strongly cement the bonds of affection between them and the American provisional administration.

Still another act of Governor Taft's was warmly commended as illustrative of his thoughtful consideration of the humbler classes. Learning that many poor families occupying the temporary discarded barracks at Camp Columbia were about to be summarily evicted by order of the Cuban authorities in preparation for the occupation of the headquarters by the brigade of marines, Governor Taft directed that these people remain undisturbed in their homes for a period of fifteen days. In the meantime, a portion of the marines will remain under canvas.

Much of the Governor's time today was occupied in receiving officials of the various departments, and judges of the courts. With the members of the Supreme court Governor Taft held a prolonged conference, concerning the drafting of a proclamation of general amnesty. This decree is of the most importance, in view of the fact that at many points on the island, notably Cienfuegos, many persons are in jail awaiting the disposition of political charges.

The governor today appointed Major Eugene F. Ladd and Gonzales a committee to audit the cash of the treasury.

Joseph J. Montenegro and Carlos Hernandez, members of the disarmament commission, left here tonight to receive arms from rebels at Santa Clara, Sagua, Grande Esperanza, Cruces, Cienfuegos and other points in the center of the island. The laying down of arms by the rebels in the vicinity of Havana will begin tomorrow, when the men will be trained for their homes.

A brigade of marines, consisting of 750 men, commanded by Major Wendell C. Meville, was landed at 6 o'clock this morning from the United States warships Kentucky, Indiana and Minnesota and proceeded by trolley to Camp Columbia. There was no demonstration.

The departure of Senator Palma from Havana has been postponed until tomorrow. Governor Taft offered Palma a warship to convey him to Matanzas or elsewhere, but the ex-president courteously declined to travel in that manner. It is known that Palma's family are not willing to traverse the island until the pacification has begun, but they are no longer apprehensive of a personal assault upon the ex-president.

WASHINGTON, Oct. 1.—Gonzalez de Quesada, minister from Cuba to the United States, today conferred with Secretary Root regarding the situation in Cuba. Quesada expressed full confidence in the friendly attitude of this government toward Cuba.

The battleship Texas, carrying marines ordered to Havana, which vessel had been anchored outside the Virginia Capes since last night, to await further orders from Secretary Taft, was ordered on her way to Cuba. After the Texas left Newport News a message came from Secretary Taft saying he wanted more marines, but did not need any more battleships.

Marines were sent to him explaining that the Texas was being sent merely as a transport, and Secretary Taft then assented to the orders for the Texas to proceed.

Beside the British steamer Marion, just secured as a transport, the war department announced that it had chartered the steamer Andes, now at Havana as a troop transport. She will proceed at once to Port Tampa and is expected will take to Havana the light battery ordered from Fort Mifflin.

General Bell, chief of staff, announced that the transport Sumner would sail tonight from New York for Havana. She will carry the first detachment of troops for the Cuban expedition, consisting of two battalions of infantry from the 1st and 2nd regiments, and one battalion of engineers from the Washington barracks, 900 men in all. The troops will be under command of Colonel Cowles, of the 5th infantry. In addition to

the troops, the Sumner will carry a large consignment of commissary stores.

General Duval left here tonight for Atlanta, and will hold himself in readiness for orders to Cuba in case any more general officers are required in the enforcement of peaceful occupation of the island.

Brigadier General John Pershing, recently promoted to be brigadier general and military attaché to Tokyo, Japan, called the war department that he will sail at once for the United States, arriving in San Francisco about the middle of the month. He will report to the military secretary and no doubt be ordered to duty in Cuba.

## HIS HOLINESS REPLIES TO FRENCH MINISTERS

Says Their Attacks Are Not Justified, for He Is Inspired By Love for France.

ROME, Oct. 1.—The statements made yesterday by Premier Sarrien and Interior Minister Chénouet of France on the subject of the church and state law in France have much impressed the Vatican. The Pope said that "the attacks of the French ministers are not justified," as he had always been "inspired by love for France and could never be affected by German or other foreign influences." He added that he drafted his encyclical according to the rights of the church and the sentiments of the French clergy, as proved by their unanimous adhesion to it.

Uncle Sam Bought Gold. LONDON, Oct. 1.—Practically all of the gold offered in the open market, \$4,500,000, was secured for the United States.

Yellow Fever At Havana.

WASHINGTON, Oct. 1.—The marine hospital service has been notified by cable from Havana of the appearance of two new cases of yellow fever there, making seven cases reported during the past week.

## MAGOON AND CANAL WORK

Retiring Minister Does Not Like Coolies.

Work is Progressing, But Is Yet Merely in the Preliminary Stage.

NEW YORK, October 1.—Charles R. Magoon, the retired American minister to Panama and governor of the canal zone, arrived here today on the steamer Panama from Colon. He was accompanied by Joseph W. J. Lee, American minister to Ecuador; Thomas W. Cook, collector of revenue for the canal zone, and J. Gabriel Duque, a Panama newspaper man.

Governor Magoon is not favorably impressed with the Chinese as a factor in the construction of the canal.

"There are at present from 2000 to 3000 Chinese on the isthmus," said Governor Magoon, "and as a citizen I do not think they make desirable laborers. They cannot be depended upon as the Barbadoes or the native negro. As soon as the Chinese have earned enough money he starts a shop of his own and the government loses a man."

Governor Magoon said conditions on the isthmus are most favorable. The canal zone he considers well governed and the people happy and prosperous. He said work on the canal is progressing satisfactorily, although it is still in the preliminary stage. He said he had not been informed concerning his successor as minister to Panama and declined to discuss the probability of himself going to the Philippines. Discussing conditions on the isthmus Governor Magoon said:

"The work on the isthmus is going on well. I can safely say that the government of the zone is as good as that of any locality in this country. My relations with the Panama government have been most pleasant throughout."

"The canal work is progressing as rapidly as possible but as yet it is merely the work of preparation. The main difficulty there is the labor question. Our labor is drawn from Jamaica and Barbadoes. These people are intelligent and with some education, but the trouble is that the West Indian is a bird of passage. You get him to understand what you want and fairly educated to his work when he suddenly drops everything and goes away. What is needed on the isthmus is organization of the laborers. They should be divided into gangs with a skilled man at the head of each gang to instruct them in the work and to advance those who become proficient in any line. Organization along this line is under way at the present time."

## ASYLUM INMATE OR MISSING MAN?

Queer Condition of Affairs Revealed By Suit to Collect Insurance Money.

ST. LOUIS, Oct. 1.—The trial of an interesting insurance case was begun today in the United States Circuit court to determine whether George A. Kimmel, former president of the Farmers' State bank of Arkansas City, Kan., is dead or is a mannequin confined in the Mattawan asylum in New York. The suit involves the payment of a \$5000 policy. The man in the asylum says he is Kimmel. Kimmel's relatives claim the man is not Kimmel and that Kimmel has not been heard from since his mysterious disappearance August 1, 1898, and that they believe him to be dead.

## ONLY ONE BALLOON MISSING

Fifteen of Those Which Left Paris on Sunday Landed Without a Serious Mishap.

SANTOS DUMONT IS SLIGHTLY INJURED

Longest Distance Traversed Was to a Point North of Hull, England—American Contestants Successful.

LONDON, Oct. 1.—With the exception of C. S. Rolls in the Britannia, all the balloons which left Paris yesterday are accounted for. The Britannia has not been heard from since she was reported at Cranbrook, so high as to be scarcely identified.

Between 6 and 10 o'clock this morning six of the balloons arrived on this side of the channel and continued in an easterly direction. The first arrival was Count de Vaux's balloon Walthalla. Later in the day several other balloons were sighted at various points in the southern counties of England. Captain Kimmeler's Montrose descended at Chichester after considerable anxiety lest she be carried out over the Atlantic.

The Italian balloon Elfe, Von Wille, descended at New Holland, near Hull, this afternoon. The Elfe made a rather serious descent. Her anchor did not catch and the balloon began to drift dangerously doing much damage to property. The aeronauts narrowly escaped being thrown out. The balloon finally collapsed across the roof of a cottage, the car dangling against the side of the house. The occupants had to be assisted to the ground.

Lieutenant Frank P. Lahm, Sixth cavalry, U. S. A., the American competitor, descended seven miles south of Whitby (about fifty miles north of Hull) at 3:30 o'clock this afternoon. He left at once for Paris. Lieutenant Lahm descended about one mile inland at Desmoulin farm, flying high. He said he had been carried by way of Caen across the channel to Chester. He then passed to the northward, but finding that he was being carried toward the open sea, decided to alight. Owing to the dryness of the moors, his anchors at first would not hold and the balloon passed dangerously near some farm buildings. Lahm's balloon was in the air twenty-three hours.

Professor Huntington, one of the British contestants, in the Zephyr, landed at Sittingbourne, Kent. He had a trying ordeal in crossing the channel, which took him eight hours. Otherwise his voyage was uneventful. The Zephyr could not have gone a quarter of a mile farther without having been carried out to sea.

The Walthalla, with Count de Vaux, descended at 1:30 this afternoon at Walsingham, Norfolk. In an interview the count said he had a splendid voyage, although the wind had been unfavorable. He estimated he had traveled 350 miles. His greatest altitude was 7500 feet. The count started at once to return to Paris.

The Cateaux, carrying Jacques Belcar, one of the French contestants, has come down at Singleton, in Sussex.

PARIS, Oct. 1.—Six of the sixteen balloons which started from here yesterday afternoon in the race for the James Gordon Bennett cup landed between 10:30 p. m. and midnight along the coast of Normandy, probably fearing to attempt the passage of the channel, in which direction the wind was blowing them. These balloons are Santos Dumont's two Americans, landed near Boulogne; Captain Albertus Dumont's Albatross; a half mile from shore between Calvados and Dives-Sur-Mer; Baron von Hovell's Pothorn; Pont Aldemer; Senor Salazar-Sunrie at Blusville, near Villers-sur-Mer, and F. H. Butler's City of London, at Blusville.

Santos Dumont had an accident, which compelled him to descend. He reached Paris at 6 o'clock this evening and received a great ovation at the Aero club, where he appeared with his arm in a sling. He explained the accident was caused by the sleeve of his coat catching in the machinery while oiling the motor of his balloon.

Count de St. Victor's Foehn landed at midnight near Rouenville, the count not venturing to cross the channel on account of the uncertainty of the wind. The City of Chateauaux, piloted by Jacques Balzan, landed on the 14th of August at daylight, after having taken four hours to cross the channel.

Vanden Broeck's Ojki landed at Breigny, department of the Eure et Loir.

The Elfe, in nineteen hours, made practically the same voyage at Count de Vaux, in 1903, when he landed at Hull, covering 570 kilometers in seventeen hours.

SUPPORTER OF HEARTS

NEW YORK, Oct. 1.—The Democratic State committee met today at the Hoffman House and elected William J. Conners without opposition. Conners led the light at Buffalo for the nomination. After the meeting the majority of the members of the state committee were received by Hearts at his residence.

## RAILROAD RATE LAW NEWLY INTERPRETED

Commerce Commission Says State Rates Must Be Filed With that body.

WASHINGTON, Oct. 1.—The interstate commerce commission has reached a most important conclusion with respect to the railroad rate law, which it has embodied in a general order made public today. It holds that where a state rate forms a part of an interstate rate, the state rate should be filed with the commission. This is an entirely new feature in connection with the operations of the interstate commerce commission.

The further announcement was made by the commission that it intends, wherever possible, to construe the law in advance, without waiting for any particular complaint to be made upon which to base its decision. In this way it is expected that a large number of complaints will be anticipated and the work of the commission correspondingly lessened.

## MEAT PACKERS HAVE FORMED ORGANIZATION

Coincident With New Law Coming Into Effect They League To Gather for Protection.

CHICAGO, Oct. 1.—The National Association of Meat Packers was formed in Chicago today, coincident with the bringing into effect of the government's meat inspection law. The members of the new association are scattered throughout the United States, but the list does not yet contain prominent local packers. General Michael Ryan, president of the Cincinnati Abattoir company, was chosen president. It was announced that the association was organized to secure cooperation among the meat packers in lawfully furthering and protecting their interests.

## BACK TO THE WHITE HOUSE

President Roosevelt and Family in Washington.

After Three Months' Vacation at Sagamore Hill, President Looks Well.

WASHINGTON, Oct. 1.—President and Mrs. Roosevelt and three of their children, Ethel, Archie and Quentin, returned to Washington this afternoon from their summer home at Oyster Bay, L. I., where they have spent the past three months. The President looked the picture of health as he stepped from the train and cordially greeted a number of acquaintances awaiting his arrival. He and Mrs. Roosevelt entered their carriage and were driven to the White House.

The President and his party occupied a special car, attached to the regular Pennsylvania railroad train from New York. In addition to his family, those with him included the wife of Secretary Loeb and her infant child; Mr. and Mrs. Clifford Richardson of New York, intimate friends of President and Mrs. Roosevelt, who are to be guests at the White House; Lattie, the assistant secretary to the President, and several of the White House clerical staff.

The President's car was detached from the train before reaching the station and shifted to a side entrance, where the carriage was in waiting. Here various officials of the government had gathered to welcome the chief executive on his return home, including Admiral P. M. Rixey, Marshal Audley Palmer of the District of Columbia, Col. Charles S. Brownell of the army, and Capt. Albert L. Key of the navy, military and naval attaches, respectively, at the White House, and Miss Hagner, Mrs. Roosevelt's secretary.

Surrounded by a squad of policemen and headquarters detectives, President Roosevelt made his way to his carriage, the remainder of the party following his lead. The party was driven immediately to the White House. Secretary Root and Attorney General Moody called at the White House at 9:20 o'clock tonight by appointment, and immediately entered into a conference with the President.

OYSTER BAY, L. I., Oct. 1.—President Roosevelt, accompanied by Mrs. Roosevelt, Ethel, Archie and Quentin, and his staff of executive clerks, left Oyster Bay for Washington at 9 o'clock today. Many of the President's village neighbors gathered at the station here to say goodbye. Out of the deference to President Roosevelt's expressed wish, however, the customary leave-taking function, participated in by the school children, was omitted. The official village goodbye was said as usual by ex-Sheriff Jerome B. Johnson, heading a committee of prominent citizens.

The President has spent three months at his Sagamore Hill home, which was the first real vacation since he became chief executive of New York, and of the nation. "Today he is in splendid physical condition, and in his appearance shows the effect of life in the open air."

NEW YORK, Oct. 1.—President Roosevelt and party arrived at Jersey City on their way to Washington at 10:50 o'clock. The President was cheered at Long Island City and Jersey City by large crowds gathered to see him.

Charles E. Hughes, Republican candidate for governor of New York, had a conference with President Roosevelt in the President's private car in Jersey City.

## MOBILE IS VISITED AGAIN

Drenching Rain Adds to the Discomfiture, But People Are Bravely Facing Work.

STORM'S DEATH ROLL IS GROWING Apace

Destitution Caused By Last Week's Hurricane Taxes the Resources and Southern Cities Appeal for Aid.

MOBILE, Ala., Oct. 1.—The business houses of the city today sustained almost as much financial loss from a heavy rainstorm, which set in shortly after midnight and lasted about twelve hours, as from the recent disaster. There is scarcely a building in the business section of the city that is capable of keeping out the rain. Many of them have no roofs at all and during the storm of today, in which four inches of rain fell, the water poured down through elevator shafts, leaking roofs and upon unprotected upper floors, ruining all manner of merchandise.

During the rain today the water poured into the federal building through the elevator in such volume that large pools were formed on every floor. A. J. his office in the city hall, Mayor Lyon sat at his desk with his feet drawn up under his chair, to keep them out of puddles on the carpet, and wore his hat to keep the rain from falling on his head.

The roof of the city hospital, which was badly damaged Wednesday night and had been temporarily repaired, was leaking badly today and Mayor Lyon dispatched an emergency corps to make it a fit place for the sick.

At a meeting of the citizens' relief committee, held this afternoon, it was agreed that while Mobile is entirely able to care for the suffering within her own limits, contributions from the neighboring sections of the country will be accepted for the aid of the sufferers in towns on the southern side of the bay.

On Dauphin's Island there are 500 homeless with only three small buildings in which they can obtain shelter. Despite the fact that two relief expeditions were sent out yesterday, there are not more than enough provisions for one day and additional supplies were sent down early today.

Word was received last night that from thirty to forty Crookes on Mon Louis island are destitute of an dinner in their care who were abandoned by the danger of starvation. It is doubtful, however, if anything can be done for them before noon tomorrow.

The citizens of Mobile have undertaken relief measures with energy and are sending food and clothing to the stricken points as rapidly as possible. Next to food, the great need is for clothing. Men and women in some places have been reduced to wearing paper sacks for clothing, and there are few sacks to be had. The first thing done by the relief expedition sent from here yesterday to Caden was to give the people clothing with which to cover themselves.

The suffering has been intense at Bayou La Batre and is still acute. Members of the relief committee which visited that place reported that they were followed through the streets by little children crying and begging piteously for bread. A large number of tents were taken to Dauphin Island last night and more today.

The Louisville and Nashville railroad tonight brought trains into the city from the north for the first time since the storm.

The crew of the Norwegian bark Norge, all of whom were reported lost, are safe, having been picked up by a passing steamer.

Eight bodies were picked up today in the lower bay.

NEW ORLEANS, Oct. 1.—Fifteen dead and as many more missing is the result of last Thursday's hurricane in the vicinity of New Orleans. Twelve persons were drowned in Mississippi Sound. Two were killed in interior towns of Southern Mississippi and more than a dozen fishermen are reported missing in the delta region of the Mississippi river south of this city.

This summary is based on reports from almost every town or settlement in or about the regions named, such as could be communicated with by telegraph or by boat or horse. New Orleans is still without sufficient telegraphic communication and Eastern mails are three or four days over due.

The deaths of lighthouse keepers Neil Nelson and Andrew Hanson and the washing of their lighthouses into the sea were reported today. This makes six lives known to have been lost in the working of sound lighthouses alone. Six beacon lights were also destroyed and Ship Island light house ruined.

COPENHAGEN, Oct. 1.—The Danish parliament was opened today by King Frederik in person. His first speech from the throne was almost entirely devoted to the civil affairs of the kingdom. The king announced that, with the object of further strengthening the foreign relations of Denmark, he proposed to visit the sovereigns of various countries.

## RAILROAD EMPLOYEES CHARGED WITH LOOTING

Freight Conductor and Brakeman Arrested at San Bernardino—Two Others Escaped.

LOS ANGELES, Oct. 1.—A special to the Express from San Bernardino says that Santa Fe detectives have just caused the arrest there of two of the company's trainmen charged with wholesale looting of freight shipments. Two others of the company's employees escaped and are being pursued by officers.

The dispatch says that Freight Conductor Sanders and Brakeman Burns have been arrested and their dwellings searched. Large quantities of silks, satins, hats, cigars and other merchandise were found, it is said, and were identified as property stolen from the company's cars. Two other men, named Borden and Hill, brakemen on Santa Fe freight trains, are said to have eluded the officers sent to effect their arrest and escaped in the direction of Mexico. Rewards of \$500 each for their capture have been offered and officers are on their trail.

The dispatch states that the railroad company has for several months been greatly troubled by thefts of freight shipments, consigned to Los Angeles merchants from the East, but were unable to trace the losses.

## STOCKTON SUICIDE AGAIN IDENTIFIED AS ANOTHER MAN

STOCKTON, Cal., Oct. 1.—The man who shot himself dead on the street Friday night last was identified yesterday at the morgue by J. W. Loomis, a laborer, as J. G. Carmichael, Jr., of Jackson, Ga., where his father, a man of wealth, resides. Loomis said he had known the man for years, had gone to school with him and could not be mistaken. The father was notified and he replied, asking a fuller description of the deceased.

## SQUARE DEAL FOR BIBLE

Is Asked For By Episcopal Bishop Wildams.

Some Use It As the Heathen Does His Fetish Or Amulet.

DETROIT, Mich., Oct. 1.—Bishop Charles D. Wildams, of the Episcopal diocese of Michigan, in an address to Y. M. C. A. members here today on "The Bible and the word of God" declared that the Bible was not the word of God, and that the teachings to the contrary are the most prolific source of unbelief the church has to contend with.

The bishop said: "Nowhere does the Bible declare itself the word of God. Yet we are told we must take it in its entirety. It is a venerable book, and visitors are requested not to touch it. As it is the direct word of God, there is no other."

"Take the young man just out of college. He reads Genesis and finds impossible geology; astronomy and ethnology. His teacher, when questioned, says: 'Manipulate it until it fits your sciences.' If too honest to find the word of God, he cravily, the young man gives up the bible. He refuses to study his reason."

"The bible needs no defense; all it needs is a square deal. There are those who read it devoutly, diligently. But I never say the bible is the word of God; I say the bible and the word of God, to those who accept the entire book as the literal word of God, I would point out that it is nowhere so stated. Christ rose asunder the old testament precepts, the law of Moses and furnished new ones. Where the old testament directed men to hate their enemies, the teachings of Christ were to love your enemies."

"We must learn from the scriptures itself how to read the scriptures. Some of us use it as a heathen does his fetish or amulet—a wicked use of the book."

## NEW BULLET TO BE ADOPTED BY ARMY

Lighter in Weight and With Tapering Point It Has Many Good Qualities.

WASHINGTON, Oct. 1.—The army will shortly adopt the new bullet which was recently tested by several of the target experts at the national rifle meet at Springfield and found to be satisfactory. Instead of the rounded point, it has a long, straight tapering point and is also about one-third lighter, weighing about 150 grains. The new bullet has a greater velocity up to 2000 yards, a greater energy up to 1000 yards, a flatter trajectory up to 2000 yards and a little better accuracy up to 2000 yards.

PENSACOLA CUT OFF FROM ALL APPROACH BY WAY OF LAND

NEW ORLEANS, Oct. 1.—A New Orleans Progressive Union official who attempted early this morning to penetrate from Mobile to Pensacola over land, near the Gulf coast, wired that the devastation of the storm made the trip impossible. He reported that search is being made for bodies in that section. He is commissioned to give financial aid to Pensacola.

## DEATH ON STREET CAR

Another Fatal Accident in San Francisco, Due to Overcrowding and a Collision.

WELL KNOWN DOCTOR INSTANTLY KILLED

Grand Jury Will Make an Investigation to Fix Blame for Many Accidents—New York Adds to List of Juggernaut.

SAN FRANCISCO, Oct. 1.—In a street car accident early this evening, Dr. Randolph Croft Stoney, a well known physician of this city, was instantly killed, and two other passengers were seriously injured.

Standing on the steps of a north-bound Desislavero street car, the three men were crushed by a car approaching in the opposite direction, which left the track at a switch said to have been defective. Dr. Stoney's leg was torn from his hip and he was otherwise injured. W. D. McKee and Clarence Howell were also caught between the cars, but both are expected to recover.

Dr. Stoney was a son-in-law of J. K. Wilson, president of the San Francisco National bank. He came of a distinguished Charleston, S. C., family, was a nephew of the late Justice Thomas P. Stoney of the United States Supreme court, and a cousin of the late Commodore George Stoney, U. S. N. He achieved distinction as a military surgeon in the Cuban war and was for several years connected with leading New York hospitals.

SAN FRANCISCO, Oct. 1.—The grand jury has decided to institute an investigation dealing with numerous street railway accidents that have recently resulted in the loss of several lives and the injury of many persons. A committee consisting of Luther Wagner, chairman of the street committee, and Secretary Myrtle Cuff has been instructed to ascertain, if possible, the reasons for alleged overcrowding of the cars and to report upon the adequacy of the equipment.

NEW YORK, Oct. 1.—A child was killed and a score of men and women injured, five or six dangerously, tonight, when a runaway car of the Yonkers street railway dashed down the steep incline of Melrose avenue, jumped the track at a sharp turn at the foot of the hill and turned over, burying the passengers in the wreckage. The accident was due to the breaking of a chain attached to the brake.

## CANADIAN RUNNER WON MARATHON RACE

New Western Record for Forty Kilometers Over a Course in Splendid Condition.

CHICAGO, Oct. 1.—Dennis Bennett of Hamilton, Canada, won the Illinois athletic club's Marathon race of forty kilometers here today, over a field of forty-two starters covering the distance in two hours forty-nine minutes, thirty-three seconds, and established a new record in the West. His closest rival at the finish was S. H. Hatch of Kansas City, whose time was 2:46:55.

Latterly, a twenty-nine mile north of Chicago was the starting point for the long run; the finish was at the Illinois Athletic club house on Michigan avenue. Mayor Dunne fired the pistol that started the field away over a course that was in excellent condition after the heavy rains of the past few days. Nearly half a hundred automobiles followed the runners.

The finish of the first five was as follows: Dennis Bennett, Hamilton, Ont., 2:41:35; S. H. Hatch, River Forest, Ill., 2:46:55; J. T. Armour, unattached, Chicago, 2:55:46; Fred Lutz, Mohawk, N. Y., New York, 2:56:45; R. A. Holman, Chicago, Seventh regiment, N. Y., 3:02:25.

## ROOSEVELT IS ASKED TO SAVE THE FORESTS

San Bernardino People View With Alarm the Depredations of Timber Exploiters.

SAN BERNARDINO, Oct. 1.—The people of San Bernardino, through the Board of Trade, have appealed to President Roosevelt to save the big forests of this county from destruction at the hands of timber cutters. A resolution has been forwarded to the president, asking him to incorporate in his next message to congress recommendation of a law to conserve the forests.

It is urged that the government should exercise the right of eminent domain and acquire all private and corporate holdings of land that are now being denuded of timber. Nothing short of government ownership, says the language of the petition, will serve to stop the timber cutting. It is pointed out that the destruction of the timber has already seriously affected the rainfall, and consequently the water supply of the region. The uselessness of government expenditures for forest propagation, while wholesale destruction of timber lands is going on by private parties, is alluded to.

When purchasing, have your sale credited to Y. W. C. A.; it means a great deal to the Y. W. C. A.

# Gottschalk's

This is Y. W. C. A. week. Ask to have your sales credited to Y. W. C. A.

We have placed this and next week at the disposal of the Young Women's Christian Association to further a worthy cause. We will give a certain percentage of our sales for these weeks to this society—providing, that at the time of purchase you ask to have your sale credited to the Y. W. C. A.

No premium tickets will be issued on these sales; all the benefits go to the Y. W. C. A. Don't forget to have your sale credited to the Y. W. C. A.

## Swagger Fall Suits

Every day is bringing some thing new; so make it a point every time you come down shopping to visit our cloak and suit department. Every day is bargain day. We have two splendid values on today.

**\$35.00 Tailored Suits at \$25.00.**

Some are plain colors, others plaids and checks. The colorings are in brown, grey, wine, blue, also black. The trimmings are of contrasting silk and velvet, self materials and buttons. They are thoroughly man tailored. No two alike in the lot and are worth \$35.00.

**\$5.00 Petticoats \$3.75.**

A special line of silk petticoats, all colors and all lengths. These skirts are made with deep flounce, finished with two small ruffles on bottom; advance styles for women; merchandise on which you can save at least one-third.

**\$50.00 Tailored Made Suits for \$35.00.**

A very handsome line of new garments with the finest man tailoring. The material plain broadcloths, fancy plaids or neat checks. These suits are in pony styles, tight fitting and semi-costume effects; only one of a kind. The jackets trimmed with braid, passementeries, silk or velvet collar and inlaid cuffs. The skirts are pleated.

**\$30.00 Values \$22.50.**

In this lot are suits of smart grey mixtures with the late pleated effects in skirts, with the blouse eton, semi-fitted coat, and ponette style, colors navy blue, black, brown and grey mixtures. These are decidedly jaunty and are worth \$30.00.

In no other store this side of San Francisco will you find such varied assortments of high class garments for misses. Everything that is jaunty in the tailor suits, and even the most inexpensive, possessing an air of grace and style which is sadly lacking in home made garments. We have a special \$20.00 value for \$15.00 in the Johnnie Jones or box coat, plain or velvet collars, in the smart plaids, or checks, plain cloths in red and brown, black and grey.

Richer materials in all the variations of etons, Johnnie Jones and ponette styles from \$18.00 to \$25.00. The assortment including distinctively new effects in plaids, checks and shadow plaids and the new venetian, green, brown in plain cloths.

Misses' long coats in every new cut fashion favors, from \$8.00 to \$25.00.

**\$10.00 Skirts for \$7.50.**

Women's new black, blue, grey and plaid walking skirts, made of panama cloth, new styles of pleated and gored effects, side front and back pleated.

We have a special leader for today in blacks, greys, blue and brown, nicely finished and plaited; some are trimmed in self material folds and buttons; a regular \$7.50 value for \$5.00.

## SPECIAL TODAY

## CHURCH ORDERS

### NEW VENIRE

Not a Juror Secured in Helm Case Yesterday.

Chief Shaw Ordered to Summon Forty Men By Thursday Morning.

After the lawyers tried all day in vain to secure another jurymen to complete the twelve that are to try Willie Helm on the charge of having murdered W. J. Hayes on the 30th of last October, Judge Church yesterday afternoon issued an order directing Chief of Police Shaw to summon another special venire of forty men. The venire of 75 returned by Chief Shaw last Friday morning was exhausted, with the securing of but three jurymen. As the peremptory challenges of the defense have all been exhausted, it seems likely that the three men need to complete the jury will be secured from the special venire ordered yesterday.

At the beginning of yesterday morning's session Everts & Ewing, attorneys for the defense, attempted to make another motion for a change of venue, but were cut short by the court, who declared that he would entertain no such motion at this time. Twenty-three men in all were examined yesterday, but no one qualified as a juror. Those who were not prejudiced against the defendant stated that they would not render a verdict of guilty on circumstantial evidence. Things went smoothly yesterday, as the attorneys for both sides had been warned by Judge Church that he would countenance no more disagreements.

The following men were examined and excused by the court for cause: J. B. Allen, G. T. Shannon, Andrew M. Storm, Charles B. Bailey, J. R. Cain, Harry F. Milner, J. D. Nelson, Frank Hoagmar, C. T. Polson, W. H. Seward, J. W. Cargile, N. J. Layton, Adolph Paulson, A. J. Johnson, Alexander Danielson, Will Lives, W. H. Byrne, Frank Newell, Herman Olson, Lewis Olson, Charles Dodeen, Harden Brady and W. H. Briscoe.

Thomas Clayton, J. W. Sabberberg, Charles Erickson and W. T. Francis were excused before their names were drawn from the box.

Chief Shaw was ordered to have his forty men ready by Thursday morning at 9:30 o'clock, and the case was put over until that date. The usual objection to this order was entered by Everts & Ewing.

### MADERA MATTERS.

Charge of Robbery Against Four Other Indians By Squaw. Proves to Be Family Mix-Up.

MADERA, Oct. 1.—The charges of robbery preferred by the Indian squaw, Sallie Roan, against Pomona Dick, and Sallie, Mokus and Annie, his squaws, turned out to be a family affair rather than anything else. The accused were in court this morning and it was shown that no felonious intent figured in the case. The bunch was allowed to go on their own recognizance and nothing more will probably be done in the matter by the authorities.

J. E. Davis was down from Coarse Gold Sunday.

C. V. Minkler came down from Raymond Sunday.

E. S. Mainwaring is down from Westville.

R. L. P. Bigelow is a visitor from Yreka.

L. H. Barlow of Hanford was a Sunday visitor in Madera.

A. N. Campbell-Johnson is up from Garvanza, Los Angeles county, and will spend a few days in Madera, looking after his property interests.

Mr. and Mrs. Gikore of the Southern hotel, gave a quiet dinner Saturday evening to a number of intimate friends in honor of the tenth anniversary of their marriage.

Ed. Balkingham, an expert powder man and miner, left by stage this morning for North Fork, where he goes to fulfill an engagement with the San Joaquin Power company.

A. H. Hogue arrived Saturday night from Alturas, Modoc county.

A. Warriner of Youngstown, Ohio, arrived in Madera yesterday.

Supervisor George Tenford came down from the mountains last night. Mr. and Mrs. Joseph Barcroft and Mr. and Mrs. T. J. Dubey went to the river Saturday evening and remained until Sunday evening. They had a very pleasant time, and enjoyed the fish and game served camp style immensely.

H. L. Crew, agent for the German Alliance Association, has adjusted the following claims; and the parties insured have received checks for the amount of their losses: N. W. Cook, \$2,209.68; R. Butler, \$303.30; Hatch & Service, \$358.35. These losses were all the result of grain fires which occurred several weeks ago, and the parties insured are well satisfied with the prompt manner in which their claims were settled.

George C. Coleman arrived in Madera Saturday night from Sisson, Shasta county.

J. F. Randall came up from La Grange, Stanislaus county, Sunday evening.

John G. Jones, Wm. Fry and Thos. Simpson, of Raymond, were in Madera over Sunday.

Cary S. Cox of Fresno passed through Madera this morning for North Fork, where he will take charge of a force of men for the San Joaquin Power company. About 6000 feet of tunnels will be constructed for the purpose of doing away with undesirable ditches connected with the company's storage system.

Art Becker and John Noble went as far as Fresno Saturday night with the former's father and mother who left for their home in the East.

Mrs. C. Merino and daughter Miss James Merino, have returned from their summer outing at Long Beach, Los Angeles county.

Mr. and Mrs. John Becker have gone to Los Angeles, where they will visit for several days with their daughter, before returning to their home in Peoria, Illinois. They had spent a couple of weeks with their son, Art Becker, and many of their former neighbors, and will also cast their lot with Madera in the near future.

H. Haunert's household goods have arrived from Los Angeles, and he will soon have his family comfortably located in Madera.

J. Blitz of Fresno is in Madera today, and expects to go into business here.

R. & G. Corsets here. We sell Pictorial Review patterns, 10c and 15c. No higher. None better.

# 10 PER CENT

S. W. Norton et ux. to Ben Schwartz, lots 5, 6 and 7, block 154; \$10.

### THE REPUBLICAN'S REPORT WAS ABSOLUTELY CORRECT

On the train to Los Angeles, Saturday, Sept. 29, 1906, 8:15 p. m.—Editor Republican: I have just read an article in the Fresno Democrat for which an apology is due you. I speak of the one in reference to the Loyalist Council of the Cumberland Presbyterian church. Mr. Clarke was chosen president of the general council of the state, and he has probably not heard of the local organization, which you so fully and well reported. I am very sorry for the unfortunate misunderstanding and have written (on the train also) to Mr. Clarke asking him to communicate with you at once in regard to the matter. Hoping you will accept my apology, I remain yours respectfully,  
EMMA R. MASON.

### Notice of Dissolution of Partnership.

Notice is hereby given that the partnership heretofore existing under the firm name and style of Norton & Swartz is this day dissolved by mutual consent. The business will be continued by S. W. Norton at the same place, 1139 J St. Mr. Norton will pay all bills of the firm and collect accounts due it.  
S. W. NORTON.  
BEN SWARTZ.

Fresno, Cal., Oct. 1, 1906.

### NOT HEREDITARY.

Baldness Due to a Living Minute Germ.

Many people, even unto the present day of grace, consider baldness due to hereditary influence.

Nothing is further from the truth—Baldness is caused by the onslaught of a minute organism which seizes itself beneath the scalp and attacks the roots of the hair—causing it to lose its life and fall out.

This organism cannot be got rid of except by the free and persevering use of Newb's Herpicide.

No matter how badly the scalp is affected the Herpicide surely disappears and hair health is restored when Herpicide is applied.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c by stamps for sample to The Herpicide Co., Detroit, Mich. Geo. H. Monroe, Special Agent.

## KEEP OUT SLOT MACHINES.

The City Trustees last night passed to print an ordinance repealing all the prohibitions in the city ordinance against gambling slot-machines of every variety. The argument in debate was all on the subject of cigar machines, but the language of the ordinance repeats the prohibition of money machines also, leaving nothing against these machines but the doubtful state law, which notoriously has not suppressed the money machines anywhere except where local measures were also taken against them. Whether the money machines would start in Fresno if this ordinance were passed, we do not know, but if they should start, the city government would find itself deprived of the only weapon for their suppression which has ever proved effective in practice.

Even supposing that the proposed ordinance would have no effect but the one its framers claim it was intended to have, to bring back the machines paying in cigars or other merchandise, this is a step backward toward wide-open town conditions which should not be tolerated. All the reasons which ever existed against these machines still exist, and the recent decision of the Court of Appeals has changed them no whit. That decision has not been confirmed by the Supreme Court, and there is a movement to secure its rehearing even in the lower court. It is a decision which, in the nature of things, must either be set aside by the courts or met by a new law of the legislature. The ruling was that these cigar machines are gambling devices and banking games, but that there is no law in California against any sort of gambling, provided the stakes are merchandise. The point that the stakes of the prizes, in this case, is money, and only that of the bank is merchandise, does not seem to have been pressed. Probably the Supreme Court will reverse the decision on this ground. If not, the legislature will have to pass a new law, since the decision as it now stands effectively nullifies all the gambling laws in California. During the interval between now and next January, there appears to be no state law against these cigar machines, or against any other sort of gambling. But, certainly the temporary suspension of the state law is no excuse for repealing the city ordinance also. Rather, it is the stronger reason for retaining the city ordinance, as the only gambling law we have left.

The battle against these gambling machines has been fought out in Fresno once, and it is a shame it should be re-opened now. These cigar machines are of course not the worst form of gambling in existence, but they are the most public. They stand on the open counters, practically on the public streets, a perpetual invitation to every body to gamble. Whatever risk there is in the first step, these machines present it in greater degree than any other form of gambling. These and other considerations, unnecessary to repeat justified suppressing the machines when it was done. Against returning them now is the even stronger additional argument that this particular step backward would be the most public and visible of all the possible relaxations of public control. Every person in Fresno would see every day a form of gambling conducted on the public streets which has for several years been prohibited by law. Every citizen would not only know, but be constantly reminded, that our standard of law and public morals has been lowered. If we must betake our municipal house anywhere, let us not choose the front door to do it.

The new ordinance is not yet passed, but the vote by which it will be passed at the next meeting, unless public sentiment in the meantime induces a change of sentiment on the board. We hope that steps will be taken to organize and express the sentiment, which we are sure exists, against this threatened step backward.

## WILL WE GET OUT?

Secretary Taft has promised the Cubans that we will get out as soon as peace is restored and a new government chosen by the Cubans is in operation. Secretary Taft will keep that promise, if the Cubans will let him. And this time they may succeed in doing so. But will we be out when we are out? Hardly. In the potential expanse of power we shall be there forever. Every Cuban election will be held either under the actual supervision of the United States or with the consciousness that its result is subject to review by the United States. Every act of the Cuban government will be taken under a sense of conscious responsibility to the United States. Like an absentee sovereign, acting through a viceroy or delegate, our government may interfere actually with the government only on rare occasions, but the fact that it is prepared to do so will be the controlling element in all the acts of the government in the interval. The Cuban people will rule Cuba, not by their own authority, but by ours, and the people as well as their officials will be responsible to us for the exercise of that authority. There will be, so far as the Cubans are concerned, actual American sovereignty over Cuba. But it is to be hoped, for our sake, that Secretary Taft's hope to confine our exercise of sovereignty to these limits may be realized. There

are some laws needed in Cuba which would be unconstitutional in the United States, and some executive authority needs to be exercised there which would be usurping encroachment in the United States. Under a nominal Cuban government, nominally autonomous, but potentially responsible to us in emergencies, no difficulties either theoretical or practical are presented by these constitutional limitations. Under a direct colonial government, the problem is more complete. It may come to that, but we will all hope not. We will cheerfully concede to the Cubans all the independence and self-government which they will consent to exercise.

## AUTO ACCIDENTS.

The number of recent automobile accidents indicates that the devil-wagon is far more dangerous to its owners and occupants than it is to the general public, and that the principal regulations needed are stringent requirements of ability and responsibility to operate a machine on the part of any one licensed to operate it. Properly handled, an automobile is less dangerous than a horse. Even at a fairly high speed an automobile can be controlled as quickly and more certainly than a horse at slow speed. With a horse and driver there is always one fool, and frequently two. With an automobile there is never more than one fool, and that one should be suppressed. The driver of a locomotive engine is required to be an intelligent, cool-headed, sober and skilled man. And yet he is driving his machine on a steel track, from which the public is excluded, and on which his engine could run safely for a considerable distance even if he should lapse attention or drop dead. His engine, too, is made from ten to a hundred times stronger in every part than it needs to be, and it will stand a great deal of inattention and abuse without becoming totally disabled. Yet we are quite right in exacting the highest possible standard of skill, intelligence and responsibility of the driver of that engine. The automobile, on the other hand, is nearly as powerful and more speedy than the locomotive. It is driven through the public streets and highways, where the relaxation of vigilance for a hundredth of a second is liable to produce a serious accident. The machine is run near to the limit of its endurance all the time, with the smallest possible margin of excess strength. It will stand no abuse, carelessness or inattention at all. And yet we permit a half-trained, speed-mad millionaire to take a party of wholly unskilled guests racing down grades toward street cars and heavy traffic; a reckless boy takes a crowd of hysterical girls on a lark; still more often and more dangerous, a tipsy rascal, with a load of drunken women, runs amuck from the roadhouse into town and the resulting accidents are laid to the discredit of the automobile. They are rather to the discredit of our carelessness in permitting the wildest machine in the world to be used as a careless plaything. In the hands of a safe man, an automobile is safe. Unsafe men should be compelled to hire a safe chauffeur.

## REVERSING THEMSELVES.

The granting of a license last night to the liquor annex to the Japanese cribs in the tenderloin, at the recommendation of the mayor and chief of police, and over the protest of a trustee who offered immediate ocular demonstration of the character of the place, is of course only one more step in the rapid resumption of the policy of tolerated vice in that region. It is the most open announcement Mayor Lyon has yet made of the reversal of his temperance policy. On the part of the trustees it involves also a reversal of the liquor policy adopted by them even in the days of a tolerated tenderloin. That policy was to refuse to grant or renew any liquor licenses in that region. With the reversal of both policies, the reforms in the realm of licensed vice are a long ways undone.

Warned by the memory of Shafter, the first policy announced by our military authorities was to send this time no fat men to Cuba. And then we sent Taft!

## Baby Girl Dies.

Little Volma Bernice, the 3-week-old daughter of Mr. and Mrs. T. C. Pritchard, died at the home of her parents on 22d Nelson street at an early hour this morning of a malignant ailment. The funeral arrangements will be decided upon when some relatives arrive from San Francisco.

Mayor Schmitz Went East. SAN FRANCISCO, Oct. 1.—Mayor Eugene E. Schmitz left for the East today preparatory to taking his departure for Europe. He was granted a two months' leave of absence by the board of supervisors and during his trip the administration of the city will be under the direction of James Gallagher, chairman of the finance committee of the board of supervisors.

Freight and Passenger Collision. WICHITA, Kan., Oct. 1. Six passenger cars were in the track at Kingman, Kan., at 11 o'clock today by a head-on collision between a coal freight and a westbound passenger on the Missouri Pacific road. The freight was taking a siding when a passenger train rounded a sharp curve and ran into it.

DENVER, Oct. 1.—More than 400 delegates were in attendance today when the Women's Auxiliary of the Brotherhood of Railway Trainmen convened here in seventh biennial session. An open meeting was held tonight at which addresses were made by P. H. Morrissey, grand master of the Brotherhood of Railway Trainmen, Mrs. Amy Downing of Fort Huron, Mich., and others.

## HEARST NOT FOR MURPHY

Tammany Boss Disclaimed By Candidate.

Though He Be for Hearst, Hearst Says Hearst Is Not for Him.

NEW YORK, Oct. 1.—During an address by William R. Hearst at the Brooklyn Casino tonight, while he was denouncing the bosses, a man in the audience interrupted him with the question: "How about Murphy?" Many shouted: "Put him out, but Hearst raising his hand said: "No, my friends, pay no more attention to him than I do to Murphy." Some one on the platform said: "That is the first rousing statement of the campaign."

## IS HURT IN ACCIDENT IN THE RAILROAD YARD

Car Sealer Eby Is Thrown from an Engine Footboard and Dislocated Hip.

Ernest Eby, a car sealer in the employ of the Southern Pacific railroad, met a painful accident yesterday morning in the yards while at his work. He is now in the Burnett sanitarium suffering from a dislocated hip and several bad abrasions and contusions. The injured man was riding on Engine No. 2081, which was in charge of Engineer Molar, and as it backed out of the round house, he was standing on the footboard. At a short distance from the spot a Mexican track hand was repairing a defective switch. As the engine came along the workman stepped aside without warning the engineer that the switch was open. The engine passed over the spot and was derailed, throwing Eby violently to the ground with the jar. He was picked up and placed in Shannon & Beall's ambulance which was summoned, and taken to the sanitarium. He is reported to be progressing favorably.

## PERSONAL MENTION.

Henry Schraeder of Hanford is here visiting friends. Edward N. Cluff is a resident of Los Angeles, who is at the Ogilvie. Mrs. J. N. Chapman is here from Alameda and at the Sequoia. Mrs. Anna Pringle is a Sequoia hotel guest, and is calling upon friends here. J. M. Robertson of Coalinga is at the Ogilvie House. He arrived yesterday. A. L. Griffen of Oakland was one of the late arrivals yesterday at the Sequoia. Andrew Thorne and Orvil H. Ritter are at the Hughes. They are San Franciscans. M. Elder of Consejo, who is staying at the Grand Central, arrived in town yesterday. Nat P. Rodgers with his wife, are guests at the Sequoia. They are from Visalia. S. Clausen is an Ogilvie House guest. He came here from San Jose yesterday morning. Miss R. L. Ford of Clovis arrived in town yesterday and registered at the Grand Central. Justice G. H. Banta of Mendota registered at the Grand Central yesterday on his arrival. John Olson is staying at the Grand Central. He arrived here yesterday from Kingsburg on business. Mrs. B. Nichol of Dinuba is a guest at the Sequoia. She came to town on a short shopping visit yesterday. J. Q. Hancanek is here from Laton, having arrived last night when he registered at the Grand Central. Miss Bella Newman left yesterday for Oakland, where she will spend a few days with a married sister. John Russell is on the register of the Grand Central. He is from Hanford and is doing business in this city. Sheriff John M. Jones of Madera is a guest at the Hughes. He is in this city on combined business and pleasure.

George Maxwell, who has been in this city during the past few days on business, left for the southern coast yesterday.

Charles J. Herman of San Francisco left yesterday for the south on a business trip after spending a few days in this city.

Mrs. Henry Pratt, wife of the fire and police commissioner, with her family, returned from a trip to San Francisco on the Owl last night.

Dr. William Thorne returned from a long summer visit to San Francisco on the Owl last night. He has been visiting his father, a well known physician of that city.

John D. Baker of Merced arrived here yesterday afternoon on a visit to Thos. E. Collins. He is staying at the Ogilvie House until the return of Mr. Collins from the convention of the Young Men's institute in Indianapolis.

Will G. Hurd and family left this city last night to settle in Bakersfield, where Mr. Hurd has accepted an opening in a business house. The family has lived in this place for two years.

Mrs. E. Stoner and her daughter, Mrs. D. A. Grant and little Thelma Grant left yesterday morning on the 8:10 train for Lawrence, Kansas, and Canton, Ohio, to visit Mrs. Stoner's sisters and brothers, whom she has not seen for over 30 years.

TAYLOR.—In Fresno, October 1st, 1906. Harry D. Taylor, beloved son of Thomas and Carrie K. Taylor, a native of Cumberland, Md., aged 20 years, 6 months, 16 days.

Funeral from family residence 1336 1 street tomorrow, October 3, 1906, at 2 p. m.

WILLIAM RAINY BRADSHAW.—Near Malaga, October 1st, 1906, a native of Missouri, aged 77 years, 4 months, 9 days.

Friends and acquaintances are respectfully invited to attend funeral services Tuesday, October 2nd, 1906, at 1:30 o'clock p. m., from the residence of Mr. and Mrs. R. L. Hu near Malaga. Interment at Mt. View.

## DEMOCRAT DEFENDS HIGH TAXES

The following editorial in last night's Democrat, defending high taxes in Fresno county, needs no comment. [From Last Night's Democrat.] There has been a very one-sided controversy as to the tax rate in Fresno county, and much has been made of the fact that for state and county purposes on property within the city limits the rate as determined by the supervisors is 10 cents greater and for property outside incorporated city limits 20 cents greater than last year, as shown in the following comparative list:

	1905-6	1906-7
State tax	\$.49	\$.478
General fund	.38	.39
School fund	.24	.25
Salary fund	.175	.18
Indigent fund	.14	.08
Bridge fund	.08	.08
Advertising fund	.015	.014
Alms house fund		.10
Total for all county	\$1.50	\$1.60
Road funds	.30	.40

Total outside city limits \$1.80 \$2.00 It has been stated that Fresno has the highest county tax rate in the State, which may be true, but it is due for one reason to the fact that the rate for road funds has been increased from 30 to 40 cents on the \$100 valuation. Attention has been directed to the fact that in sixteen counties of northern and central California seven have lower rates than Fresno, but that some of them have as high state and county rate as Fresno. A special point has been made of the fact that San Francisco, with its large destruction of taxable property, has not increased its tax rate as much as Fresno county, forgetting, however, that the tax rate was with a purpose kept low and that to offset the reduced income other means were adopted, such as the increase of the liquor license figure, that reductions in department expenses were made by special arrangements, but that anyhow deficits in the revenue will follow and that, while the tax rate was kept low for this year of the great disaster, there is no guarantee of it for succeeding years when the city itself needs more money to rehabilitate itself.

That the rate of taxation in Fresno is high there is no gainsaying. No one will attempt to defend a high tax rate, but in Fresno's case it should be said that it was not arbitrarily determined, but was made necessary by urgent improvements and by circumstances which could not well be avoided. In other words, there is another side to this question of the tax rate which, in justice, should be given to explain why it was fixed at the figure that it was, high though it is. The improvements proposed to make out of a hasty character and to that extent the county will be benefited. Three of the largest increases have been as shown in the comparative list in the general, the alms house and road funds. It will be admitted that the road fund tax has for years realized less money than the needs of the county demanded. Fresno is a growing county and new portions of it are being opened up for farming and colonization purposes. These farming and colony districts must have roads and bridges to contribute to the market of the county and such road and bridge improvements are essential to the value of the property for taxable purposes. Such roads and bridges, where they are beneficial to the communities interested are in the end profitable investments. It may be true that the county road moneys are not always expended to the best advantage, but that is the fault of the system that obtains and does not affect the question of the validity and urgency of the tax nor the fact that more and better roads are needed in the county in the outlying and mountainous districts when the cost of making them is also greater.

But there are also other reasons why the tax rate is high and, as has been shown, higher than in some other counties that have been cited in this controversy. The assessment roll this year has been increased nearly two millions, but even so, assessment valuations are too low and unequal. They can and could be in the high-priced and cultivated tracts be increased and yet be within just limits of the selling prices for which these same lands are held. Until assessment valuations are more equitably determined and a method is devised by which less personal property escapes taxation the high rate will probably continue. Grand juries have successively and unwisely on the need of an alms house in connection with the county hospital and farm enterprise. This structure and other improvements on county property will demand an expenditure of \$30,000 out of the ordinary, and this contributed to an increase of the tax rate.

A state and general election is coming on in November and the cost of it out of the general fund will be \$12,500, another extraordinary expenditure, helping to increase the tax rate.

There is on trial in the Superior court the cases of the Helm boys, accused of murder, and whatever the ultimate outcome of their prosecution a cost of at least \$10,000 will be entailed on the county, making them probably the most expensive criminal prosecutions in the history of the county, with the exception of the McWhirter and the Evans-Souls cases. This \$10,000 is another unlooked-for and extraordinary expenditure that has gone to increase the tax rate. The unexpected floods last spring damaged roads and bridges and approaches to them, and for repairs and improvements an estimate of \$15,000 has been made, also contributing to the high tax rate.

The new road to the Kings river constructed with the aid of the State will call for another \$12,500 this year, and for next year, money the tax rate had to be increased.

There is now no bonded indebtedness of the county, but enough has been cited to show some of the extraordinary expenses under which the county will be and to meet which the tax rate continued high. They were urgent expenses and of a character that could not be well delayed or put off, so that when the tax rate is discussed these things should be borne in mind and the impression should be not allowed to go out that the tax rate was arbitrarily and extravagantly placed high when the exigencies of the case did not warrant it. It should be kept in mind that this is not the first time that there has been a \$2 rate since 1900. All these things should be cited in fairness in a discussion of the question, while conceding that the rate is higher than in some other counties.

Fresno is a growing county and her needs must be met, not extravagantly, but honestly and judiciously. And yet she cannot stand still and call a halt in all improvements and betterments. The remedy for high taxation is not so much in fault finding and expressions of public indignation. Public improvements are demanded and should be authorized where urgent and when their cost is justified by the proper and economical administration of the people's affairs see their way financially to do them without burdening the small property owner, who is the one that never escapes the payment of taxes, while the big realty owner does find a way to evade his proportionate ratio. One remedy for high taxation is in the election of an assessor who will have the courage, justice and business knowledge of placing proper and just valuations on all taxable property. Such a man could turn in an assessment roll which would make it unnecessary under ordinary conditions to levy a tax rate of over \$1.60.

ple as whites at the station; quartet of young negroes, lounging on a big broad basket and basking in the sun, singing medleys in an idle sort of way. 6:45. Small hills appearing, sun is setting; beautiful Western sunset; to one who has lived in a great city for years it is truly a treat to see this great ball of fire majestically descending far off over the distant hills. 7:00. The day god has set; how lonesome it must be away out here with the farm houses miles and miles apart and prairie everywhere; porter very busy taking down herds. 7:15. Train has made least 18 miles and evidence of life is in six hours' travel on top of a hill some distance away. 7:45. Darkness. 10:00. Retired for the night.

MONDAY, 7:10.—Passed first stream of clear water, Las Animas river, since leaving Chicago, 1,000 miles; also passed a colony of the Salvation Army, about 700, mostly Eastern recruits; number of large beet sugar mills being passed; little baby boy, 14 months old, running through coach, keeps passengers all amiable and pleasant; into siding for a long freight train eastbound, nearly every car bearing sign, "Oranges and Lemons." 9:50. Las Animas, typical Western town, inhabitants mostly foreigners; young man from East, Mexican and breezy manner, has spent quite a while on a ranch. 5:20. Leaving La Junta; head-on wreck on Denver train delayed us seven hours here, no one killed, passengers all jovial, time passed fairly well. 8:00. Climbing long hill, mountains on either side; top of hill, tunnel 12 carlengths long, down-grade now. Flirting with Morpheus.

TUESDAY, 6:00.—Albuquerque, pretty city; still seven hours late. 6:45. Passed Taos, large village of Pueblo Indians, 1,200; mountains ever in sight now. Three engines on train last night 8:30. More Indian villages, very quaint houses, low-roofed, built of mud and rammed on an elevation, some have side door entrances, others are entered from the roof—just sort of "drop in," you know. 9:30. Village of Navajo and Moki, about 900; Fort Wingate now to the north; largest and oldest fort in the territory; Great Lava Beds, extending 10 or 12 miles along the railroad, all that is left of a volcano now extinct; just passed large Navajo temple, situated on top of an elevation, built of mud and tapered off on top, standing all alone in the dreary, desolate New Mexico foothills, Indians come for hundreds of miles to worship here. 11:25. Stopping at Gallup, for dinner; now in Arizona. At 11:15 we reached steel monster which has been whirling us across the plains, so fast that the tall grass and vegetation near the track was bent to the ground by the wind-splitting speed with which we rushed by, stands just outside, puffing and throbbing as though impatient to be on its way, while the passengers and train crew (there all are equal and sociable), take 30 minutes for dinner, which is all prepared and ready to serve. Pretty girls, too, to do the serving, usually out here from the East for their health. 1:30. Foothills are high, rugged and of queer

formation, walls are of many colors, copper and light gray predominating, some are most interesting, being 150 to 200 feet high and all colors of the rainbow, each layer being a distinct color. 3:45. Canyon Diablo, crevices in the earth 255 feet deep and two city blocks long. 4:15. Walk out on the line at Angel, three blue shirts and a red bandanna. 5:00. Flagstaff, Lowell Observatory, San Francisco mountains, 14,000 feet above sea level, 15 miles from station, seemingly not more than 5 miles at the most; Territorial school, attended by creeds from all over the territory. 6:40. Williams, junction of Grand Canyon of Arizona. Made number of very pleasant acquaintances on train and was somewhat reluctant to see them pulling out of the station on their way to a trip to the Canyon. Supper in a Chinese restaurant, everything prepared before one's eyes, even the woodpile occupies a prominent position between the tables and large cooking range. Far West, in city of "bonnie light"; Saloons are principal objects of attraction, piano and violin, mostly women players, sentimental songs almost exclusively; tables literally covered with chips representing hundreds of dollars are occupied by cowboys, ranchmen and professional gamblers, who watch the cards and the cards only; stud poker seems to be the preferred game in these resorts; collections of ores, firearms and curios are most interesting and worth thousands of dollars. Homes are electric light and all is very quiet, except when a difference of opinion in some "grogery" calls into action an array of

weapons. WEDNESDAY, 4:45.—Bright Angel Hotel, Grand Canyon; seated before a comfortable open fireplace making this note and awaiting sunrise; campfire far away only thing discernible in the canyon; half-bush of ice in Williams last night. 5:50. Left Bright Angel with an Austrian government official, walked to O'Neill's Point and here saw the sun rise over the canyon—magnificent and grand in every sense of the words, truly beyond the power of any human description; scope of view extending 75 miles down the canyon; one must stand in its very presence to appreciate its magnitude and grandeur. 8:30. Commencing ascent of Bright Angel trail; horses back, freight and construction; places in the park where a slip of pony's foot would mean death down precipitous hundreds of feet deep; half way down; have no fear now, trust implicitly the little sure-footed creature treading the passages with utmost caution. 12:00. Plateau of the Colorado River, seven miles from the rim of the canyon, drop of 5,000 feet from rim to river bed; the Colorado River roaring and rushing along, with its treacherous rolling sands and death-dealing rapids. 2:30. Begin ascent of trail, arriving at top at 5:45; sunset; night fall; wind in the pine trees moans as though it were midwinter.

Seated on the rim of the canyon, one looks out over the vast area of darkness, is robbed of his natural senses and imagines he is on the ocean—the wind howling through the masts, bright stars overhead, roll of the waves (mountain tops far away), and finally even your body seems to be riding with the ship through these ocean swells.

THURSDAY, 6:00.—Arose from most restful and refreshing sleep; breakfast; good-bye to Grand Canyon. 11:50. Williams Junction. 2:45. Boarded California Express. 5:15. Selma, near Mexican Indian woman, short, coarse, black hair, barefooted, face misshapen and almost grotesque, selling cakes and cookies; hardly necessary to say she made no sales, although passengers gave her money; now winding around mountain sides; to the southwest dark, rolling clouds give evidence of storm; clouds have passed; wonderful sunset.

FRIDAY, 7:00.—Tehachapi, delightful morning; trees and vegetation becoming more general; ravenous appetite, superinduced by crisis, invigorating atmosphere; many vineyards, orange and lemon trees. 11:30. Fresno, Cal. "22." FRESNO. A beautiful city of 22,000, situated in the most luxuriant part of the San Joaquin (San Vaukum) Valley, a city of pretty homes, sunshine, fruits and flowers, scrupulously clean, and healthy people—hardly really the garden spot of California, except for a few hot summer months. A visit to the ranch of H. C. Roeding, a successful experimentalist and grower, proved a rare treat to me, an Easterner, and unaccustomed to such a profuse and varied sight of nature. Here I ate large delicious peaches, fresh figs, Malaga and seedless grapes, English walnuts and other fruits, all of which hung temptingly near the ground. Olives, dates, oranges, lemons, apricots, apples, plums, almonds, berries, pears and nectarines surrounded us on all sides, and

But there are also other reasons why the tax rate is high and, as has been shown, higher than in some other counties that have been cited in this controversy. The assessment roll this year has been increased nearly two millions, but even so, assessment valuations are too low and unequal. They can and could be in the high-priced and cultivated tracts be increased and yet be within just limits of the selling prices for which these same lands are held. Until assessment valuations are more equitably determined and a method is devised by which less personal property escapes taxation the high rate will probably continue. Grand juries have successively and unwisely on the need of an alms house in connection with the county hospital and farm enterprise. This structure and other improvements on county property will demand an expenditure of \$30,000 out of the ordinary, and this contributed to an increase of the tax rate.

A state and general election is coming on in November and the cost of it out of the general fund will be \$12,500, another extraordinary expenditure, helping to increase the tax rate. There is on trial in the Superior court the cases of the Helm boys, accused of murder, and whatever the ultimate outcome of their prosecution a cost of at least \$10,000 will be entailed on the county, making them probably the most expensive criminal prosecutions in the history of the county, with the exception of the McWhirter and the Evans-Souls cases. This \$10,000 is another unlooked-for and extraordinary expenditure that has gone to increase the tax rate. The unexpected floods last spring damaged roads and bridges and approaches to them, and for repairs and improvements an estimate of \$15,000 has been made, also contributing to the high tax rate.

The new road to the Kings river constructed with the aid of the State will call for another \$12,500 this year, and for next year, money the tax rate had to be increased.

There is now no bonded indebtedness of the county, but enough has been cited to show some of the extraordinary expenses under which the county will be and to meet which the tax rate continued high. They were urgent expenses and of a character that could not be well delayed or put off, so that when the tax rate is discussed these things should be borne in mind and the impression should be not allowed to go out that the tax rate was arbitrarily and extravagantly placed high when the exigencies of the case did not warrant it. It should be kept in mind that this is not the first time that there has been a \$2 rate since 1900. All these things should be cited in fairness in a discussion of the question, while conceding that the rate is higher than in some other counties.

Fresno is a growing county and her needs must be met, not extravagantly, but honestly and judiciously. And yet she cannot stand still and call a halt in all improvements and betterments. The remedy for high taxation is not so much in fault finding and expressions of public indignation. Public improvements are demanded and should be authorized where urgent and when their cost is justified by the proper and economical administration of the people's affairs see their way financially to do them without burdening the small property owner, who is the one that never escapes the payment of taxes, while the big realty owner does find a way to evade his proportionate ratio. ## Business Eyes

The business man needs to use his eyes rapidly and easily. Wouldn't it help you to have ONE pair of glasses that you could wear all day if you wanted to, and yet see clearly in all directions, whether at the distance or the reading point?

No leaving glasses at home, no mistaking them among your papers, no fumbling in the pockets.

Wear KRYPTOK lenses, made only by us and obtain all these advantages in a single pair of glasses.

OTHER OPTICAL GOODS  
Perfect fitting glasses from \$2.50. Examination free.

CHINN & KOPPEL  
FRESNO

2015 Mariposa St., Fresno  
San Francisco (2), Oakland,  
Sacramento and Stockton.

## COLONIST RATES TO CALIFORNIA

### SOUTHERN PACIFIC LINES

DAILY—August 27th to Oct. 31st.

From SIOUX CITY	\$27.50
COUNCIL BLUFFS	25.00
OMAHA	25.00
ST. JOSEPH	25.00
KANSAS CITY	25.00
LEAVENWORTH	25.00
DENVER	25.00
HOUSTON	25.00
ST. LOUIS	30.00
NEW ORLEANS	30.00
PEORIA	30.00
MEMPHIS	30.00
BLOOMINGTON	30.00
ST. PAUL	30.00

NEW YORK	50.00

The cost of a ticket can be deposited at once with any Southern Pacific Agent in California, and the ticket will be furnished to the passenger in the East, while these low rates are in effect. Stopovers allowed at all points in California (except Los Angeles and San Francisco) and certain intermediate stations in Arizona and Nevada, up to November 15, 1906.

### C. M. Burkhalter

2013 I St. D. F. & P. A.

## The Price of Raisins at 4c

Has no bearing upon the prices of our Wall Paper. The prices there are always down—quality above being up. Let us quote you the first, let us convince you of the second.

No doubt you have papering to do this fall. Let us give you figures. We now do this class of work, and painting, in connection with our Wall Paper department, and will guarantee satisfaction, as we employ only the best of workmen. Rush orders solicited. Give us a call.

## W. Parker Lyon

Fresno's Furniture King.  
1132-1140 I Street.

## Cook With Gas

and have no kitchen worries. Plenty of leisure to rest in when you cook with gas. For there's no wood to chop, no kindling to split—your fire is always ready and always right. Get your range today.

## Fresno Gas Company

1032 J St. Phone Main 35

One hundred and twenty unrebated overalls for sale for men and interest, also 30 Winchester rifles at \$2.50 each, four 12-foot show cases in good condition for sale at  
UNCLE IKE'S LOAN OFFICE.  
1820 Mariposa St. The only incorporated loan office in Fresno.

## SOCIETY

Miss Charlotte Colby of Berkeley, who is the guest of Mr. and Mrs. Wesley Wadden, was honored yesterday with a delightful tea, given for her by her hostess at the Walden home on P street. Miss Colby has many friends in Fresno, where she lived for several years before coming to Berkeley, and yesterday's pleasant little gathering gave them a chance to meet her. In the afternoon nearly thirty friends called and enjoyed a pleasant little visit with Miss Colby, while in the evening nearly twice that number were the guests. Refreshments were served in a picturesque vine-covered arbor in the yard. The refreshment table in the center of the arbor had a centerpiece of purple grapes and other fruits arranged with trailing grape vines.

Miss Colby's visit concludes the latter part of this week, when she returns to Berkeley to prepare for her European trip, upon which she will be accompanied by her mother and her brother, Professor Colby, of the chemistry department of Berkeley.

The most recent engagement announced is that of Walter L. Wharton, son of Mr. and Mrs. F. A. Wharton, pioneer residents of this city, and Miss Hazel Wallace. The prospective bride has made her home in Fresno for the past five years, a part of which time she has been doing secretarial work in the local telephone office, where she is highly thought of. Both young people have many warm friends, who will be most interested in the news of their engagement, which is to culminate in a wedding in the not far distant future.

Miss Mary Anderson, with her little niece, Miss Rebecca Thornton, and Miss Nancy Johnston, all of Birmingham, Ala., who have been the guests of Mrs. Susan Thornton and Miss Adelaide during the past summer, leave for home tomorrow. Miss Johnston will stop en route south for a month's visit in Kansas City.

The Query club will meet for its first meeting of the year next Monday afternoon with the president, Mrs. George Morrow, to celebrate "President's Day." The following Monday, Mrs. W. P. Miller will be with the club to begin the blackboard study for the year.

The West Park Thursday club will meet on Thursday afternoon with Mrs. A. S. Bowen of No. 1435 White avenue instead of with Mrs. M. T. Lockhart as was previously announced.

Mrs. H. W. Wilbur and Miss Ethel Wilbur will be the guests of Mr. and Mrs. H. O. Baker for a few days this week before their departure for San Francisco where they will join Mr. Wilbur making their future home there.

Mr. and Mrs. Roy Pulliam spent Saturday and Sunday with friends in Madera.

Mr. and Mrs. Fred Kimble and little daughter were up for the day yesterday from their ranch near Parlier.

Mr. and Mrs. Agnes Clark expect to leave shortly for Oakland, where they will live in the future.

The Fresno Musical club has issued attractive little year books and the following article written by a musical enthusiast explains the club work very entertainingly:

"So much merriment has been occasioned the well known 'music bath' that no one has dared heretofore to undertake its rehabilitation from the honeycuckoo state to one of original beauty. However, its metamorphosis has been complete and it has appeared in a more and pleasing manner, quite humble and comprehensive, very readable and interesting in the form of the year book of the Fresno Musical club which was issued last week.

"Every club has a mission—that is its raison d'être. The mission of this particular club is briefly set forth in article 1 of the constitution—'This club is organized for the purpose of mutual improvement and the promotion of musical interests in Fresno and vicinity. In working condition scarcely half a year, much has been done for the improvement of musical interests and much accomplished in securing attention from Fresno from Eastern musical centers, the value of this attention not to be despised.

"The three artists' concerts, the most successful one drawing the second largest attendance on the coast, should not altogether eclipse the splendid showing of the active members who have in such a short time raised the musical standard much higher than it ever was before. The home days in which they participated were remarkable not only for their artistic effort but also in the number of selections heard for the first time before a Fresno audience, which is to say the least, was educational. Perhaps the associate members realized this, or the moral support they gave by attending the afternoon rehearsals, or of the part they took in making the artist's concert a possibility. Judging from all sides, the first season was certainly a success and the coming year promises much. Several artists have already been engaged and negotiations are pending for others. No one but the board of directors can quite understand the difficulties connected with the signing of the artists especially since the disaster in San Francisco.

"The cost musical clubs are undertaking what the financial syndicate did before and if only for the culture growing out of the concert, they should be cultivated in every way. Their work is most laudable, their motives the highest.

"The chorus cast by the workers of the Fresno club is not to be denied. It is a living, breathing chorus, full of energy and resolution meant to enthrall all units for treasured, strategical and uplift.

Mr. and Mrs. Jack Petty have gone to live in Oakland, where the former has accepted a position with a large lumber firm. While their friends here regret their going, they rejoice in the fact that their fortunes have been bettered by the move, which is in every way advantageous. Mr. Petty will be especially missed from musical circles.

Miss Ada Harvey has returned to Berkeley after a week's visit with her parents, Mr. and Mrs. William Harvey. Miss Harvey has an excellent position with Mr. Goodwin, a large corporation lawyer in San Francisco and is living

in Berkeley where she has a number of pleasant friends.

Mrs. D. D. Allison returned on Sunday from a ten day's visit with friends in San Leandro (Oakland) and San Jose.

Mrs. Ethel Aber returned last night from Hanford where she has been exhibiting some of her decorated china which constituted a much admired exhibit at the Hanford fair.

A youthful couple were joined in marriage last night at the home of the bride's parents, Mr. L. Street, when Miss Lena Lowery, daughter of Mr. and Mrs. J. C. Lowery, became the bride of Deputy Town of Visalia. The bride, who is an unusually pretty girl, looked radiantly fair in her soft white wedding gown. Her sister attended her as maid of honor, while the groom was supported by L. A. Rodgers. The ceremony was formerly conducted by the Rev. J. C. Lowery, but is now in the hands of Visalia, where after the honeymoon the newly wedded pair will make their home. In duty colors of pink and green the parlor was decorated for the happy event, while the dining room was in corresponding shades. A wedding supper followed the ceremony. It was a small wedding, only the immediate relatives and a few close friends witnessing the tying of the nuptial knot by the Rev. Duncan Wallace. The young people went north on a wedding trip visiting Oakland and other bay cities.

Mrs. Frank Johnson entertained the ladies of the Eastern Star last night in her handsome new home, which was brilliantly lighted up. The evening was spent most enjoyably in informal music and games. Light refreshments were served.

Mrs. M. W. Muller and Miss Ruth Muller returned on Sunday from San Francisco, where they went last week.

Miss Mary Anderson, with her little niece, Miss Rebecca Thornton, and Miss Nancy Johnston, all of Birmingham, Ala., who have been the guests of Mrs. Susan Thornton and Miss Adelaide during the past summer, leave for home tomorrow. Miss Johnston will stop en route south for a month's visit in Kansas City.

"The chorus cast by the workers of the Fresno club is not to be denied. It is a living, breathing chorus, full of energy and resolution meant to enthrall all units for treasured, strategical and uplift.

Mr. and Mrs. Jack Petty have gone to live in Oakland, where the former has accepted a position with a large lumber firm. While their friends here regret their going, they rejoice in the fact that their fortunes have been bettered by the move, which is in every way advantageous. Mr. Petty will be especially missed from musical circles.

Miss Ada Harvey has returned to Berkeley after a week's visit with her parents, Mr. and Mrs. William Harvey. Miss Harvey has an excellent position with Mr. Goodwin, a large corporation lawyer in San Francisco and is living

## DEATH ENDS LONG LIFE OF WILLIAM R. BRADSHAW

Respected Pioneer Passes Into Rest at Home of His Daughter in Malaga.

Death has again entered the ranks of Fresno's pioneer citizens, the latest to answer the call of the grim Reaper being William R. Bradshaw, who passed away yesterday at the home of his daughter and son-in-law, Mrs. and Mr. S. R. La Rue at Malaga.

The deceased was a native of Missouri and was 77 years of age. He is well known in this county, where he enjoyed the friendship and esteem of all with whom he had associations. A man of vigor, his long life was spent in useful activity, and not until advancing years brought feebleness with them did he lay down the arduous career of life to spend his closing days in repose. His wife predeceased him some time ago, and latterly he made his home with his daughter and her husband.

The funeral will take place from the residence of Mr. and Mrs. La Rue at Malaga this afternoon at 1:30 o'clock. The interment will be at Mountain View.

## A RECORD RAISIN PACK.

Fresno Home Company Handled 215 Tons Yesterday.

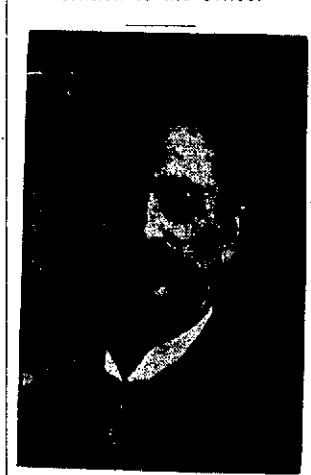

A record raisin pack was made yesterday by the Fresno Home Packing company which shows how fast raisins are being handled in this warm weather. Yesterday the employees of that company weighed in from farmers' wagons, steamed and piled into freight cars for immediate shipment 215 tons of raisins.

The work was done with four steamers. This is known to be a record day in the handling of these raisins.

## I. C. MOORE FOR COUNTY CLERK

Pledges Able and Economical Administration.

Promises that If Elected He Will Devote His Whole Attention to the Office.

[John C. Moore, Republican Candidate for County Clerk.]

John C. Moore, the Republican candidate for county clerk, is making a lively energetic canvass for the office and his friends are confidently predicting victory for him. When Mr. Moore's name was presented to the Republican convention he received the nomination by acclamation. Before consenting to run for the office Mr. Moore had the matter under consideration for some time and finally yielded to the urgings and encouragement of many Republicans.

Mr. Moore has been a resident of Fresno county for twenty-two years and in that time has never before sought a county office, although he has always taken an active part in Republican politics. When Mr. Moore came to Fresno county from Illinois he was in poor health and all the worldly wealth he had was \$30. He was a stranger here and had to make his own way. He began his career in Fresno county working on a threshing machine and getting his start in that line and getting his start in that line and getting his start in that line.

## LOWER COURT DAILY GRIND

### Juan Guin Faces Charge of Stabbing Countryman.

During Controversy He Stabs Mariano Giron in the Back.

Before Judge Briggs yesterday afternoon, Juan Guin was arraigned on a charge of assault with a deadly weapon. The victim of his attack was Mariano Giron, and the crime took place one week ago on the west side. The defendant was represented by Attorney Brickley, and Deputy District Attorney Kaule looked after the case for the people. The evidence was heard through an interpreter, both parties being unable to speak English.

The continuing witness stated that he was talking to the accused outside the Davey Crockett saloon on F street last week, and got into a little argument. The prisoner became enraged and drew a knife when his back was turned. As he turned to walk off he was stabbed in the back. Continuing witness stated that he had been in a hospital since the result.

The judge held Guin to answer before the Superior court.

Emerson's Tears Melted Judge. Charles Emerson is the man who was sentenced to twenty days by Judge Briggs last Saturday for disturbing the peace and assaulting his wife. The man was turned out of several hotels and finally the man was arrested by Officer Mueller on the following morning. When he was sentenced to jail, Emerson tried vainly to get off with a fine, but the judge was obdurate. In the jail since his incarceration, the wife-beater has wept every hour of the day, and made the lives of the jailers and prisoners miserable with his lamentations. The news of the man's grief reached Judge Briggs, who concluded that \$50 would be a pretty good sum for the man's presence in jail. He fined him that amount and turned him loose.

Arrest of Two Fathers. If A. Sessions, superintendent of the parental school, swore out warrants yesterday afternoon for the arrest of A. Schmall and Jacob Goebel, charging them with neglecting to send their children to school. Mr. Sessions stated that he cautioned the men on one or two occasions, but to no avail. The children were about nine years old each, and were running about the street, or else working somewhere. The judge said that parents must be brought to a sense of their duty by drastic means if they fail by gentler methods, and issued a warrant for each of the men.

Willing to Marry Girl. Juan Gutierrez, the young Mexican who is in jail charged with child stealing, may emerge from his troubles by marrying the girl, Ignacia Calderon, with whom he is alleged to have run away. He claims that he was willing to marry her right along, but got mixed up in an entanglement with the older sister, whose spite at unrequited love is the bottom of the charge. Her side of the story has not yet been heard, but the matter will probably be patched up today. The girl, Ignacia, is not quite 18 years old.

Monday Morning Drunks. There was a number of drunks and disorderlies on the docket yesterday, and the lunch were disposed of in short order with the usual dose.

Hugh McDonald, the man who was stabbed by old John Griffin some time ago, was the first to answer the roll call. He said he was sorry and explained how it happened. The court increased his sorrow by handing him out 30 days, and Hugh was removed to the jail to join his old enemy Griffin in the tank.

Elijah Crouch was arrested by Park Commissioner Mat Burton in the courthouse park. He got off with suspended sentence. G. Smith, another drunk arrested by Deputy Sheriff Paine, got the choice of \$5 or five days. D. P. Henry, a peace disturber, was sentenced to \$10 or ten days, and took the days. Will Draper was released on suspended sentence on the showing that it was his first offence. P. Paster and J. W. Henderson, drunks, were each given \$5 or five days. B. Rei, the man who used bad language while in a drunken condition at the Southern Pacific depot on Saturday night, forfeited \$10 bail by his absence.

Quartet of Hoboes. Four weary tramps up and three of their number were encouraged out of town with flouters of thirty days each. The fourth was old Carl Lillstrand, an incorrigible, who has been up several times before. He got 30 days. The others were Glen, Brown, Robert Miller and Carl McHugh.

Violate City Ordinance. M. T. McIntosh paid a fine of \$5 for riding on the sidewalk. For the same offence, under condition of less or gravity, A. T. Hughes was fined \$3.

## INQUEST OF MRS. RAMON WILL BE HELD TODAY

The inquest over the remains of the late Mrs. Ramon, who met her death through excessive use of intoxicants last Sunday, and whose dead body was found in wood shed at No. 1523 Tuolumne street, will be held this afternoon. Two sons, who live in Selma, are expected in today, but as their stepfather was interested by the county one month ago, it may be possible that a like fate awaits the dead woman.

Prison Reform Was His Hobby. CEDAR RAPIDS, Ia., Oct. 1.—William A. Hunter, warden of the state prison at Anamosa, died last night, aged 70 years. He came into national prominence because of his advocacy of prison reforms.

Great Britain's New Leviathan. LONDON, Oct. 1.—Today the battleship Dreadnaught left Portsmouth for her steam and gun trials. The admiralty attaches such importance to these trials that the route will be kept secret.

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows. Trust him.

## SUPERVISORS DISPENSED CHARITY YESTERDAY

Allow for Support of Children Abandoned by Mother—Other Orphans Provided for.

The Board of Supervisors spent most of yesterday afternoon's session in providing for the care of orphans. Mrs. Sarah Vrooman appeared before the county legislators with a pitiful tale. She had two Stockton children in her care who were abandoned by their dissolute mother some time ago. The mother was before the supervisors last month and tried to get them to allow her to place the children in the county orphanage. She was refused and shortly afterwards left the town, leaving the children in the care of Mrs. Vrooman, stating that she would send for them when she got work. The woman has not been heard of since, and Mrs. Vrooman was granted \$10 a month from the indigent fund for the care of the waifs.

Gustaf Horklund was granted permission to place three orphans in the county orphanage, he to pay \$22.50 a month for their support there.

Mrs. Dana (Gambell) was granted permission to place two half-orphan children in the county orphanage and Mrs. M. A. White was granted \$10 a month from the general fund until January 1st for the support of two half-orphan children.

## IS HURT IN ACCIDENT IN THE RAILROAD YARD

Car Sealer Eby Is Thrown from an Engine Footboard and Dislocates Hip.

Ernest Eby, a car sealer in the employ of the Southern Pacific railroad, met a painful accident yesterday morning in the yards while at his work. He is now in the Burnet sanitarium suffering from a dislocated hip and several bad abrasions and contusions. The injured man was riding on Engine No. 2081, which was in charge of Engineer Mosler, and as it backed out of the round house, was standing on the footboard. At a short distance from the spot a Mexican track hand was repairing a defective switch. As the engine came along the workman stepped aside without warning the engineer that the switch was open. The engine passed over the spot, and was derailed, throwing Eby violently to the ground with the hip. He was picked up and placed in Shannon & Bell's ambulance, which was summoned, and taken to the sanitarium. He is reported to be progressing favorably.

Thousands of Sufferers Have been cured of that dreadful disease, catarrh, with S. B. Catarrh Cure, which cures catarrh of the head, ears, nose, throat, stomach, kidneys, bowels and bladder, when all other remedies fail. Try it. At Smith Bros' Drug Store.

## CITY TRUSTEES MAKE TWO WIDEOPEN MOVES

## TRUSTEES VOTE FOR GAMBLING

Pass Ordinance to Permit Slot Machines.

Administration Comes Out Squarely for Return to Wide-Open Conditions.

By virtually adopting an ordinance last night to repeal those sections of the charter that make it unlawful for anyone in Fresno to operate slot machines, the City Trustees declared their intention of allowing cigar slot machines to be again used in Fresno.

The repeal was made because of a recent decision of the Appellate court in which the state law against slot machines was declared to be ineffective against machines that pay cigars and was passed in compliance with a request from the cigar men that the City Trustees of Fresno avail themselves of this decision and allow the local cigar men to place their machines in their places of business.

At the time that the decision was handed down by the Appellate court, E. Kutz, proprietor of the Grand Central cigar stand, appeared before the trustees on behalf of the cigar men and asked that the city ordinance be repealed. No action was taken at that time on the suggestion of City Attorney Ewing, who stated that he had received no official copy of the decision and that the newspaper reports might be in error.

City Attorney Ewing recently received a copy of this decision and at the suggestion of Trustee Keskler prepared the new ordinance passed to print last night.

The ordinance follows:

"An ordinance amending an ordinance relating to gambling and prohibiting all gaming machines and certain classes of gambling and providing for the violation thereof.

"The Board of Trustees of the city of Fresno do ordain as follows:

First, that paragraph 675 of the ordinance of the city of Fresno, being section 1 of ordinance 308 of the city of Fresno is hereby repealed.

"Second, that paragraph 676 of the ordinance of the city of Fresno, being section 2 of ordinance 308, is hereby repealed.

"Fourth, this ordinance shall take effect and be in force immediately upon and after its adoption."

Although the ordinance repeals that section of the city laws against money paying machines also it was pointed out last night that these machines are against the state law and cannot be used anyway.

A motion was made to pass the ordinance without the formality of printing it but the negative vote of Trustee Anderson made it necessary for the ordinance to be passed simply to print last night.

The petition of the vegetable peddlers for a reduction of the license upon them was presented to the trustees last night by A. M. Drev. After some discussion on the matter it was referred to the license committee of the trustees and the license collector for recommendation.

A petition from the residents in the vicinity of J and Sacramento streets for an electric light at that corner was referred to the water and light committee with power to act.

The ordinance requiring the license on meat peddlers to \$5 a year came up for final passage at last night's session of the trustees. On the suggestion of the mayor it was moved that the matter be put over for a time in order that the trustees might have time to investigate the situation. Mayor Lyon said that he had heard that the McHenry Meat company was preparing to run peddling wagons.

## LIQUOR ANNEX TO JAP CRIBS

Recommended By Mayor and Chief of Police.

And Passed By Trustees Despite Offer of Proof of Its Character.

In the face of a statement by Trustee Keskler that the applicant is running his place in connection with Japanese cribs that house the women driven from the Cherry avenue place, the City Trustees last night granted a restaurant liquor license to E. H. Iwata with only two dissenting votes. The trustees that voted against the motion are Keskler, who moved the denial of the petition, and Statham, who seconded the motion.

The petition came up for a second reading at the beginning of last night's meeting and was endorsed by Mayor Lyon and Chief of Police Shaw. It had the city clerk called the petition as next order of business when Trustee Keskler was on his feet with a motion for its denial. He stated in making the motion that he had positive knowledge that the restaurant run by Iwata is run in connection with the Japanese cribs on the right hand side of Tulare street which have recently opened up with the knowledge of the authorities.

Trustee Statham in seconding the motion for a denial of the petition said he understood it was the policy of the board not to grant any more liquor licenses in the red light district. "I think, if I am not mistaken," said Statham, "that this very board moved some time ago as a policy not to grant any more liquor licenses in that district after next April. I think that it is very poor business policy to grant a license that will not be effective after next April."

"Those people over there sell liquor anyway," said Trustee Collins, "and revenue from the business. We haven't refused anybody over there yet."

"How about Killeen?" asked Keskler. "He's a white man, and we refused him license. We are in America now, not in Japan and I don't believe in granting these Japs what we won't give to a white man."

"We have not refused Killeen a license yet," said Collins and Trustee Myers got to his feet to defend the petition.

"Killeen is now doing business under a license from this board. At any rate his is a saloon license. I think that the saloon matter is another question. This has probably been looked up by the mayor and chief of police and I am willing to abide by their recommendation."

"I'll take this board over there to-night and show them this place," said Keskler, "and they can decide for themselves whether it is run in connection with cribs or not."

At this point Mayor Lyon said that Manson McCormack had a few words to say, and the attorney addressed the board on behalf of the petitioner. He said that the granting of a similar license to a peddler in the board last week had evidently meant that the board had decided to grant such licenses in that district. "You cannot discriminate against this man," said McCormack, "you must either grant his petition or announce a change of policy." He stated that Iwata runs a banquet hall and that he wants the license to sell wine to his countrymen at banquets.

Mayor Lyon at first was not going to put the motion for a denial of the petition on the ground that it had not been seconded but Statham reminded the presiding officer that he had seconded the motion. The motion was put and lost. Keskler and Statham being the only trustees who voted for it. On motion of Trustee Collins seconded by Trustee Anderson, the license was granted. Keskler and Statham voted against it.

The petition of E. J. Weinmar for a restaurant license was recommended by the mayor and chief of police. Weinmar conducts a restaurant on I street next to the Gil Edge saloon.

Petitions from Hongmy at No. 1151 F street, Albert Brings at No. 1117 Ninth street and Ching Fook at 2406 1029 G street for restaurant liquor licenses and a petition from A. B. Parks to transfer his liquor license to 1840 Mariposa street to Frank Brison, were referred to the mayor and chief of police for report.

The armored cruiser West Virginia and Pennsylvania left Naples yesterday and the armored cruiser Colorado and Maryland sailed from Palmer yesterday, all bound for Piraeus, Greece, on their way to Asiatic stations.

The cruiser Charleston, on which Secretary Root made his trip from New York around the coast of South America to Panama, left that port yesterday for San Francisco. She will become the flagship of the Pacific fleet.

The supply ship Glacier, which formed part of the Dewey drydock expedition, sailed from Jaffa yesterday for Naples on her way to Hampton Roads and the collier Brutus has arrived at Colon on her way from Cavite to the United States. These two vessels may assist in the naval operations in Cuban waters.

Bureau Portland Railroad Survey. SANTA ROSA, Oct. 1.—Engineer J. R. Graham, of the Southern Pacific, accompanied by a gang of men and a large equipment, went north over the California Western on a special train today to begin work on the final survey for the new Santa Fe and Southern Pacific extension to Eureka and Portland.

Ex-Pugilist Died in Jail. MARYSVILLE, Oct. 1.—Jack Turley, a former pugilist, died in the city prison today. He had been arrested on the charge of vagrancy. Turley was well known throughout the state during his prime.

Santa Rosa Is Growing. SANTA ROSA, Oct. 1.—Registration figures show a substantial gain for this city over two years ago, in spite of the recent disaster. Taking the government basis of estimate, Santa Rosa's population is now 10,000, while at the last registration it was 9,830.

PRODUCE STAKES ON BRIGHTON BEACH TRACK

Electioneer, Futurity Winner, Neglected in the Betting, Won the Colts' Half.

NEW YORK, Oct. 1.—J. C. Van Ness' Electioneer, winner of this year's futurity, today won the \$11,000 colts' half of the Produce stakes, six furlongs, at Brighton Beach. He was practically neglected in the betting. Opening at 6 to 1, his price gradually went up to 12 to 1 at the close. J. P. Rainey's Demond, the extra money favorite, was second, with H. P. Whitney's Paumotuok, another 12 to 1 shot, third. The time was 1:12 3/4, which equals the best time of the stake.

There was considerable rough riding in this race and Water Pearl was the chief sufferer, being knocked completely out of the running, and J. Jones, his rider, was thrown against the fence. The filling of the Produce stakes, six furlongs, and worth \$10,000 to the winner, resulted in an easy victory for the 1 to 3 favorite, Count Drey, belonging to James R. Keene, with Barclay Bell second and Common Sense third. Time 1:12 4/5.

WASHINGTON, Oct. 1.—At least seventy-five meat dealers and packers throughout the United States are without the pale of the new meat inspection law, which became effective today, according to a statement by Secretary Wilson today. Twenty-five of these dealers have had inspections, but it was found that their plants were not in shape to permit them to engage in interstate business. Fifty others, many of them in New York, have notified the department that they have just heard of the extent of the law and asked for inspection.

VALLEJO, Oct. 1.—Chief Electrician George Hanson of the Mare Island navy yard, has returned from the Farallones, where a wireless plant, sixteen times more powerful than the old one, has been installed. Great hopes are entertained of getting connection with Honolulu. Four men are left in charge and tests soon to be made are awaited with interest. Captain George, chief of the equipment department at Mare Island, will send Hanson and a force of men to Eureka next week to establish a wireless plant at Samoa on the coast near that city.

NEW WIRELESS PLANT ON FARALLONE ISLES

VALLEJO, Oct. 1.—Chief Electrician George Hanson of the Mare Island navy yard, has returned from the Farallones, where a wireless plant, sixteen times more powerful than the old one, has been installed. Great hopes are entertained of getting connection with Honolulu. Four men are left in charge and tests soon to be made are awaited with interest. ## IMPROVING OUTSKIRTS

Trustees Order Much Street Work.

Will Complete the Grading of Most of the Streets in Fresno.

The City Trustees last night passed to print resolutions of intention to grade a great number of streets in the outskirts of town. This work when done will complete the work of grading most of the streets in Fresno.

The streets to be improved follow: Broadway avenue to be sidewalked from Stanislaus to Belmont and the following streets are to be graded: Santa Clara from H to I, Iva from R to X, X from Monterey to Los Angeles, I from Los Angeles to San Diego, Howard from Silvia to Alice, Mono from R to Angus, Sacramento from H to J, K from Los Angeles to Hamilton, P from Santa Clara to east city limits, Amador from H to I, C from Monterey to Mono, Mono from I to the alley between E and F, Kern from I to Angus.

A resolution to grade Monterey avenue from Kern to the east city limits was referred to the chairman of the street committee for conference with the railroad company through whose property the street passes.

A compromise against sidewalking Alway street from Silvia to Belmont was overruled, because the trustees said that the remonstrators had agreed that the work should be done this fall.

All the sidewalks north of Silvia street are to be hereafter laid one foot from the property line to save the trees in the northern part of town. This resolution was passed at the suggestion of Trustee Myers.

The trustees last night passed the ordinance recommending some time ago by the Realty board, making it a misdemeanor for any person to allow debris to collect in front of his property.

Poundmaster Horner was made a special officer in order that he might enforce the law against dumping debris out on the outskirts of town on the pound reserve.

The city attorney was instructed to look into the law to see if the trustees can force the railroad companies to put drains through their reservations to carry off flood waters.

The chairman of the street committee was instructed to buy a new pump for the poundmaster.

## SCHOOLMASTERS' CLUB ELECTS OFFICERS

The Central California Schoolmasters' club, which was organized a year ago and includes in its membership most of the principals of the schools in this valley, held its regular meeting last evening. It being the first meeting of the school year, new officers were elected and the discussion of a special topic was omitted.

The following officers were chosen: President F. M. Lane; vice president, D. D. Davis; secretary, C. L. Burian; treasurer, J. D. Duvall; executive committee, C. H. Howell, H. A. Sessions, J. A. Novell and Robert McCourt.

An electric plant at the local committee on entertainment of the State Teachers' association. The topic for special discussion at the next meeting will be "Reformed Spelling."

## INDEPENDENT ELECTRIC GETS FT. MILLER RIGHTS

T. J. Boyd promoter of the Merchants' Independent Electric Co., states that his company has acquired the Fort Miller Power Co's water rights on the San Joaquin river. These were controlled by Rothchild of the Novelty concern. An electric plant at this place, together with transmission of the power to Fresno, will cost something like \$1,000,000.

A hurry up call from Mrs. Hill, who lives on the corner of E and Jensen avenues, last night brought two deputies from the sheriff's office in search of a crazy man who was said to be prowling about the neighborhood terrifying the women and children of the place. A close search of the vicinity failed to locate the man, and it is supposed that he was, either some drunken man who had lost his way, or else the information came from a mistake.

## MYERS GRILLS MAYOR LYON

Denounced Mayor's Statement as False.

The Executive Wouldn't Produce Hoxie's Resignation Before the Board.

A lively tilt between Mayor Lyon and Trustee Myers marked the closing hours of last night's session of the Board of Trustees.

Myers asked for the letter that Hoxie had written to the Board of Trustees in which he tendered his resignation and the mayor replied that the letter had been addressed to him personally and that he did not see fit to read it at the meeting.

"The resignation was offered to me," said the mayor, "and I do not see fit to accept it."

"Then you think that this board has nothing to say in the matter?" asked Myers.

"This board can remove Hoxie for cause if it sees fit, but I am the one to accept or reject a resignation," replied Lyon.

"Well, what I want to ask you about is a published statement credited to you in which you say that I oppose Mr. Hoxie for personal reasons," retorted Trustee Myers.

"I do not care to discuss that matter here," said Mayor Lyon growing angry. "You can come to see me tomorrow in my office and I will give you an explanation."

"An explanation should be forthcoming here," said Myers, "as that statement was intended to discredit me in the eyes of the public and with the rest of this board. That statement is absolutely false. Hoxie did not say that I opposed him for personal reasons. That was left for you to say."

"Well, I understood that there was some difference between yourself and Mr. Hoxie with regard to the appointment of a sewer inspector," replied the mayor.

"Did you get that from Mr. Hoxie?" asked Myers.

"No, but from some one connected with the city government who ought to know," replied Lyon.

"Well, I want to say here that it is absolutely false. There has been no unpleasantness of any kind between myself and Mr. Hoxie and he will tell you so. I should have said that something had been said in the office of the city engineer. That kind of a statement comes with poor grace from you."

The reports of the city officials were read and accepted at last night's meeting of the trustees. The report of the city treasurer showed a balance of \$244,029.59 on hand at the end of September.

The license collector's report showed \$287,235 collected during September and Police Judge Briggs' report showed \$592 in fines collected during the last month.

Reports of the other city officers were read and accepted. City Engineer Hoxie reported that two carloads of pipe are on the way to be used in the construction of the new sewer system.

The trustees voted to make an official visit to Toedding park this morning. Meat Inspector F. J. Burleigh was allowed \$75 for his September salary. The demand of Tax Collector J. B. Humecek for a rebate of \$225.70 for money over-paid the city treasury was recommended favorably by the finance committee and was granted.

The trustees voted to confirm the appointment of Willis Pike as library trustee to fill the unexpired term of J. W. Gilkison, resigned.

The petition from the local Plumbers' union for the trustees to retain Plumbers' Inspector Ellithorpe in office at a salary of \$125 a month was referred to the ordinance committee which has the matter under advisement.

A request from a Chicago hotel that the trustees endorse the application for the establishment of a postal saving banks was tabled on the advice of City Attorney Ewing, who stated that the application was going to raise a big cry in the country.

AT THE NOVELTY. Weber-Field Comedy Company Makes Hit at Popular Playhouse.

The Weber-Field comedy company opened the bill for this week at the Novelty theater last night. That the patrons of the play house appreciate such an innovation on the vaudeville stage was shown by the large attendance on the opening night. The program was started by a white-ministered show in the original Weber-Fielders Desmond Sisters, Billy and John Rader. Miss Gladys Graham, one of the most attractive subjectesses of the company, sings "Deanie" in a most pleasing manner.

Charles Meyer then renders "I Am Wearing My Heart Away for You" as the illustrated song, followed by the moving pictures on the "Noveltyscope" which depict the trials of a lachrymose who visits a married friend.

The second part is a picturesque group scene in Wyoming in which the entire company of fourteen members participate. The new popular song, "Cheyenne" is introduced by Miss Graham, assisted by the company, which makes a decided hit.

Low Wallace Is Arrested. Very much the worse for liquor and full of noisiness, a man who said he was Low Wallace, was arrested last night by Policeman McCall and booked at the county jail on a charge of disturbing the peace. The prisoner is a ranch hand when he takes a notion to do anything, but was spending a strenuous day off when gathered in.

FRESNO VS. SEALS ON DIAMOND TODAY

Today's baseball game will commence at 3 o'clock. Myers will be on slash for the Seals and Spies will catch. Hoag and Hogan will be Fresno's battery. Ladies will be admitted free to the ball games every day except Saturday and Sunday.

## SUIT OVER WATER RIGHT

Four Big Canal Companies Carry Fight to Court.

Hong Wo Must Stand Trial for Attempt to Bribe Mayor Lyon.

A suit involving the right to a large quantity of water taken from the Kings river to irrigate lands in Fresno and Kings counties was filed yesterday morning in the Superior court of this county. The suit was brought by the Stinson Canal and Irrigation company and the Crescent Canal company jointly against the People's Water Ditch company. The canals of the plaintiffs pass through this county and the canals of the defendants pass through Kings county.

According to the complaint filed yesterday, the Stinson Canal company and the Crescent Ditch company take water from the Kings river at a point on the lower fork known as Muddy Slough. The ditch of the Stinson Canal company is fifteen miles long, sixty feet wide and six feet deep and carries 105 cubic feet of water a second. The Crescent ditch, which was built in 1885, is twenty-five miles long, 100 feet wide and five feet deep and carries 213 cubic feet a second.

The complaint states that during the last two years the defendant canal companies have without right constructed dams across the Kings river at a point above where the plaintiffs divert their water and by means of those dams take 400 cubic feet of water out of the river a second. The plaintiffs assert that in times of low water, they do not get the amount of water they are entitled to and that the defendants take more water out of the river than they can use.

They assert that unless the defendants are restrained from taking water out of the river their acts will ripen into rights and deprive the plaintiffs of their substantial rights and cause them to suffer irreparable damage. F. H. Short and M. K. Harris are attorneys for the plaintiffs.

Must Stand Trial. Hong Wo, the aged Chinaman who offered Mayor Lyon \$200 to grant him immunity from the laws against gambling several months ago, must stand trial for an attempt to bribe an executive officer of the state. This decision was handed down yesterday morning by Judge Austin in dismissing the writ of habeas corpus sought for the celestial. The writ was sought on the 14th of last month by Attorney Lewis H. Smith, who contended that under the law the mayor of the city is not an executive officer of the state. The decision handed down this morning was based on section 312 of the political code, which designates the executive officers of the state. The section says that "such officers as are created by or under the authority of general laws for the government of counties, cities or towns, or by the charters or special laws affecting the same," shall be considered executive officers of the state. The provision in the charter of Fresno requiring the mayor to enforce the laws of the state is deemed to make him an executive officer of the state under this section. The prisoner was remanded to the custody of the sheriff.

Minor Court Matters. The bill of exceptions of the attorneys for the San Joaquin Canal and Irrigation company in their suit against the counties of Stanislaus, Merced and Fresno was settled yesterday in Judge Austin's court. The canal company brought suit against these three counties to restrain the enforcement of the water rate fixed by the Boards of Supervisors of the counties and was beaten in a Superior Court trial. They have appealed the case and today's settling of the bill of exceptions will allow the matter to be taken to the Supreme Court at once.

A demurrer to the petition of the plaintiffs in the suit of the Town of

# AGRICULTURAL FAIR OPENS AT HANFORD

Sixth Annual Exposition of Farm Products, Live Stock and Domestic Arts Will Continue a Week—A Number of Fresno Exhibitors.

The big event of the year at Hanford has begun, with the opening last night of the "Sixth Annual California Fair." This exhibition, which is to last throughout the week, is the only fair that is still held in this valley, the habit of holding expositions of farm products appearing, unfortunately, to have died out. But the peculiar success of the fair after year in Kings county seems to be both a denial of the need of their being abandoned and a good proof of the enterprise of the people of Hanford and the surrounding country.

As is always the case, many of the exhibitors, for one reason or another, were behind hand with their installations, and yesterday the grounds, about a mile outside of the city limits, were still a scene of great activity in the way of unpacking of exhibits, and the driving in of animals for the show stalls. By evening, however, very nearly everything was done, and the formal opening of the fair passed off without a hitch.

Kings county is very fortunate in having very good grounds, which have been improved by the agricultural association year after year. This association is a quasi-public organization, the stockholders deriving no profits, but turning the grounds on a money-making basis for the benefit of the annual fair. During the rest of the year, the grounds and buildings are rented for a day or more at a time to various societies and individuals, and the revenue is spent on the autumn event. This year, besides the large pavilion and the stalls and pens for live stock, the association has a large vaudeville building erected adjoining the pavilion, and had doubled the capacity of the grand stand. The race track is in very good condition.

The principal feature of the opening last evening was the address by E. T. Cooper, one of the leading attorneys of Kings county. Music was furnished by the Fresno band and by an orchestra, and remarks were made by leading citizens, including officers of the association. The directors of the association are: President, J. M. Daggs; vice-president, secretary, E. L. Howard; treasurer, E. E. Ralls; J. W. McCord, D. R. Cameron, J. D. Biddle, S. C. Kimball, George Aydelott, and H. G. Lacey. Secretary Howard is the life of the fair, here and there and everywhere, the indispensable man on the grounds.

In addition to the exhibits, the management has provided as drawing cards through the week, races for the afternoon and musical and vaudeville performances for the evenings. The Fresno band boys have been brought down and will give the concert a day. The races being this afternoon with two harness and two running events. The first harness race is for named horses, the best two out of three heats, and

carries with it a purse of \$75. The second is for the 2:20 trotting class, the best three in five mile heats, for a purse of \$200. The first of the running races is for three-eighths of a mile and repeat, for 2-year-olds, purse of \$60. The second is a three-quarter mile dash; purse of \$75.

The fair pavilion is a quadrangular building about 60 by 200 feet in floor area. The lower floor is surrounded on three sides by business booths. These were yesterday practically all completed. Handsomely decorated, the business men of Hanford had placed in them very creditable exhibits of merchandise of all kinds. A few of the booths were occupied by business men from other places.

The first booth to the left of the main entrance is occupied by the only exhibit from a newspaper and publishing company, that of the Fresno Republican. Furnished from day to day with papers, it also makes a handsome display of many of the accessories of press work, including stereotyping plates and matrices.

The great central space of the pavilion is occupied by what is known as the Kings county exhibit. The first display is a very handsome stand of ornamental plants and shrubbery. Back of this are a number of stands of fancy displays of dried fruits, put up by commercial houses, displays of flour and other products, and finally an agricultural and horticultural display from Grangeville. A committee of ladies from that town spent all day in putting it up, and in many ways it is the most attractive exhibit in the pavilion. Besides the displays of products, there are glasses of jellies and other domestic articles.

The gallery running around the pavilion hall is given up to booths for displays of fancy and ornamental work and bric-a-brac of various kinds. There are things too numerous for the mention, line mind to grasp, home-made rugs of brilliant hue, crazy-quilted kimonos, pillows of all sizes and descriptions, handkerchiefs and all the things that are made of lace and embroidery.

Two of the ladies that are in competition in the art department are from Fresno county. Mrs. E. Aber of this city has her fine collection of hand-painted china and water colors installed in a pretty booth on one side of the building, while near the front entrance is the display of Mrs. B. Frances Bryant Clark, formerly of Fresno and now of Clovis. Mrs. Clark received the first prize for her collection last year.

Live stock entries were made very late, exhibitors disliking evidently to bring their animals to the grounds early. At noon yesterday less than half of the entries were made. Those animals already on the grounds made a very good appearance, however. Some especially fine cattle and hogs were displayed.

Fresno county was represented in this class by J. E. Dickenson's Clydesdale stallion and head of shortborns, Thornton Mingo's head of shortborns, and John Zapp's band of ten Shetland ponies and German coach stallion.

To the visitors to the fair, one of the main attractions will be Zapp's small menagerie. He has a display of birds, including swans, pheasants and grouse, monkeys, guinea pigs and other animals.

One of the most complete exhibits in the fair is that of poultry, a special building for which was erected. At noon yesterday there were 130 exhibits of various classes of fowl. Still other sheds have been provided for agricultural implements of various kinds. While the racing has been provided for the lovers of that sport and to attract a crowd, it is plain that the fair management, by the offer of liberal prizes, has attracted a very general farming, mercantile and domestic economy display, determined that this shall be a real fair.

A restaurant, lunch counter and light refreshment booths on the grounds compensate for the distance the fair is from town. The management has seen to it that cost of transportation to and from the grounds is very reasonable.

The people of Hanford take great pride in the exhibition, and point to its recurrence year after year as a proof of the enterprise of the town. Everyone was talking about the event yesterday, and in addition to the many visitors from surrounding counties, the fair management will have a generous patronage from the home city.

## PASSES INTO DEATH IN EARLY MANHOOD

H. D. Taylor, Newcomer Who Won Friends, Dies at His Home Yesterday.

Harry D. Taylor passed away at his home at No. 1338 I street yesterday morning after a brief illness from a complication of disorders.

The deceased, who was a native of Cumberland, Md., was 29 years of age and was the son of Thomas and Carrie K. Taylor. He sustained the loss of his young wife a few months ago, and the blow weighed heavily upon him. He came to this city fifteen months ago and engaged at his trade as a machinist on his arrival but was obliged to relinquish his calling with the coming of illness. Although a resident of this place but a short time, he enjoyed the esteem of a wide circle of friends who learned of his death with deep regret.

The funeral will be held from the family residence at 2 o'clock tomorrow.

## CHARGED WITH CRUELTY.

Farmer Thornton Tied Up Calf Till Chain Cut Into Neck.

William Harvey, Sr., secretary of the Fresno Humane Society, yesterday secured the issuance by Justice Hall of Clovis of a warrant for the arrest of a man named Thornton for cruelty to animals. The complaint was sworn to by Charles Hecce one of the witnesses.

Thornton, who is a vineyardist in National colony, is accused of neglecting his livestock and especially of starving a calf and keeping it tied up with a chain until the chain cut into its neck.

## RACE TROUBLE NEAR VISALIA

White Ranch Hands Threaten Japanese.

Officers Called from County Seat to Prevent Trouble and Men Leave.

VISALIA, Oct. 1.—Trouble between whites and Japs in the Visalia Fruit and Land company's orchard north of this city this morning resulted in a call for officers, and Deputy Sheriff Dave Douglas and Constables Gilliam and Newman went out to quell the disturbance. Threats were made by some fifty white employees that they would wipe out the fifteen or sixteen Japs also at work, and from their belittling attitude it seemed quite probable that they would do so if unrestrained.

It appears that there had been more or less ill feeling between the two races for some time. Trouble was precipitated last night when a white boy and a Jap got into a fight and the latter was badly used. The Japs when they heard of it threatened dire things to the boy, but he eluded them and was driven to town in a rig. When the whites heard of the threats made by the Japs they were greatly angered and this morning went to Manager M. J. Rouse and demanded that the brown men be discharged. Mr. Rouse refused to do so. This angered the men still more and they declared that they would quit and also that if the Japs started to work that they would "fix" them.

There were a number of others, white families from Alhambra and elsewhere, who wanted to work and who took no part in the demonstration. The belligerent whites declared that the latter should not work either and was to protect these as well as others that the officers were called.

The presence of the latter averted the disturbance, about fifty of whom were paid off and left the ranch. Several threatened to return tonight and create a disturbance, and officers are on the watch.

A house belonging to H. Levinson on the Devinson ranch two miles east of this city, was destroyed by fire about 9 o'clock last night. The barn and a large quantity of prunes on trays in the drying yard were not damaged. It was reported that the orchard was on fire and a number of people believed the report.

Miss Levina Overholzer of Berkeley arrived this evening from that city and will act as substitute in the business department of the local high school until a regular teacher can be secured to fill the position.

W. E. Wild, who has been in business in this city for many years, will dispose of his stock of goods and leave shortly for Los Angeles, to which city Mrs. Wild departed last night. All health of the latter is the cause. Both Mr. and Mrs. Wild have a host of

friends in this city and vicinity, who will regret their leaving.

Troop F of the Fourteenth cavalry, Captain Walker commanding, arrived this morning from the Sequoia park, which the troop has been guarding for the past several months. The troop will leave tomorrow for the Presidio at Monterey. Some excellent road and trail work has been done this year under the direction of Captain Walker.

Visalia Camp. Woodmen of the World, yesterday unveiled four monuments erected over the graves of departed Woodmen, namely, Walter Cogswell, Z. K. Wilson, Fredrick Tostman and A. R. Murray. The unveiling was accompanied by the usual ceremonies.

## TWO TADS RUN AWAY FROM THE ORPHANAGE

Edward Bruce and Lawrence Stanford, little inmates of the county orphanage, became tired of their confinement in that institution, and Sunday morning they decided to visit some relatives who live in the mountains, near Millwood. The two 10-year-olds got about fourteen miles out on the Dry Creek road by nightfall and camped with a couple of teamsters who were returning to Fresno. When the teamsters heard the tale of the small boys' venture they persuaded the barefooted youngsters to return to town. They were turned over to Sheriff Collins upon their arrival and after being threatened with the terrors of the trust school, were placed safely in the hands of Mrs. McDonald, the matron at the orphan asylum. The shamefaced boys acknowledged their repentance and vowed that they would never run away again.

Odd Fellows Attention. All Odd Fellows are requested to meet at the hall, I and Merced streets, at 2:30 p. m. today, for the purpose of attending the funeral of our late brother, J. S. Bradshaw. Funeral services at the residence of S. R. Lurie, Malaga, and at the grave. S. R. COMBS, Pres. Relief Com.

Medical and Surgical Institute of Dr. J. L. Martin has been equipped at an expense of \$5000 for examination and treatment of sick by latest methods.

## RESULTS ON THE DIAMOND

AMERICAN LEAGUE.  
CLEVELAND, Oct. 1.—Detroit took the first of the last of the series with Cleveland by the score of 3 to 2.  
Cleveland ..... R. H. E.  
Detroit ..... 2 11 0  
Batteries: Rhodes and Clark; Mul- lin and Schmidt.

At St. Louis, Dougherty's double, following Tammill's single, scored the only run of the game today and won for Chicago in the thirteenth inning. Score:  
St. Louis ..... R. H. E.  
Chicago ..... 0 6 2  
Batteries: Pety and Spencer; Alt- rocks and McFarland.

NATIONAL LEAGUE.  
At Brooklyn, Pittsburg batted more timely than the locals today and won easily. Score:  
Pittsburg ..... R. H. E.  
Brooklyn ..... 5 11 1  
Batteries: Brady and Gibson; Pas- torius and Ritter. Umpires, Eustis and Johnstone.

At Boston, Boston won today's game Cincinatti, 4 to 2. Score:  
Boston ..... R. H. E.  
Cincinnati ..... 4 6 1  
Batteries: Young and Brown; Wei- mer, Essick and Sehl.

NEW YORK, Oct. 1.—New York took both games of today's double-header. Score:  
FIRST GAME.  
St. Louis ..... R. H. E.  
New York ..... 3 5 1  
Batteries: Karger and Noonan; Ames

and Bresnahan. Umpires, Carpenter and Klein.

SECOND GAME.  
St. Louis ..... R. H. E.  
New York ..... 2 4 2  
Batteries: McGlynn and Noonan; Ferguson and Bresnahan. Umpires, Klein and Carpenter.

At Philadelphia, the National league season closed here with a double-header between Chicago and Philadelphia, the visitors winning both games. Lund- gren allowed Philadelphia only two hits in the first game. The second was called at the end of the sixth inning by agreement. Scores:  
FIRST GAME.  
St. Louis ..... R. H. E.  
Chicago ..... 4 5 0  
Philadelphia ..... 0 2 1  
Batteries: Lundgren and Moran; Moser and Donovan. Umpire, O'Day.

SECOND GAME.  
St. Louis ..... R. H. E.  
Chicago ..... 1 6 2  
Philadelphia ..... 3 4 1  
Batteries: Ruelbach and Moran; McCloskey and Crist. Umpire, O'Day.

No Hoboes For Two Years. Editor Republican: If you will give me the small space in your paper I desire to say to the people and voters in regards to the hobo traffic that there is none to my credit for the past two years.  
J. W. DUMAS, Constable, Fresno.

Fresno, October 1, 1906.

## Two Striking Values Today \$35 Suits \$22.50—\$20 Coats \$12.50

Our women's clothing store has just been put in possession of two very remarkable bargains. Suits and coats of ultra stylishness that were secured at a fractional price by a stroke of clever work on the part of our New York buyer.

Being in close touch with the big makers he frequently is offered some unusual inducement by makers who have small lots on their hands and are anxious to unload.

THE SUITS. Picture to yourself a handsome English cheviot suit in dark ground work, and a lively color combination of pattern; the coat with fly front, double breasted, either semi or close fitting, hip length coats, and you will have an idea of how charming these suits are.

You may also choose from mannish suits in fine checked or striped mixtures in the Pony Jacket, Norfolk or sack styles; others in fancy Etons or blouses. Choose from brown, blue or black broad cloths and serges. Every suit has a skirt of the very newest model. A choice for the next few days only of \$22.50.

THE COATS—A very handsome and stylish tourist coat, 50 inches long, that's the fashionable length. The materials in fancy mixtures and plaids and in rain proof covert cloths; some box circular, some half fitting backs. Every coat trimmed with inlaid collars and cuffs, fancy buttons and tailor straps. Coats that will appeal to women of good taste in dress. They are stylishly cut, the right hang and sweep. A garment that is very useful, either for street or evening wear. When we offer them at \$12.50 we are naming a price that can not be equalled anywhere on the coast.

**Redlick's**

School Handkerchiefs. The sort that mothers will appreciate; durable, slightly and low priced; neatly hem-stitched, quarter inch hem; a dozen for 20c.

## Men's Blue Serge Suits Today \$11.75

If you are partial to blue serges this sale will interest you, and if not we have added some exceptional values in hard twisted worsted and bright sparkling chevots to increase the interest.

But, back to the blue serges. We have them in the narrow wales, in the invisible plaids and in the faint checks. Serges are the popular fabrics this fall, and the man who has one will be well dressed.

The serge suit we offer at \$11.75 will be hard to match at \$15 in any store on the coast, and we bar none. The serge is of chemically tested cloth, sun proof and rain proof, the coat made with the semi-military shoulders, broad lapels, inter-lined breast, no breaking or getting out of shape; silk serge lined, the trousers with extra inner stays on the seams, semi-peg top, medium wide hips. Suits that are sure to please a critical man. We will make any needed alterations free of charge.

### Men's Night Shirts 49c.

Made of good quality outing flannels; night shirts are in negligee or French style; no collar, silk trimmed neck and front. Outing flannel ones are warm and comfortable, all well made and cut full length and width. An extra strong value at 49c. Sizes 15 to 19, aisle 8. This is an opportunity that men will appreciate.

### 50c Work Shirts 39c.

Men's work shirts—they are as staple as sugar and here are 50c ones at 39c. They are made of plain black and black and white drilling; some with double front and back, also blue, gray and blue and white chambray and light colored twills; the kind that are cut full, double stitched and reinforced. Choose from sizes 14 to 17. Each 39c.

### Men's Golf Shirts 69c.

Here's another big lot of golf shirts to go at 69c during this sale. Neat figures and stripes in light, medium and dark colors. Made of madras, chevots and percales; attached and detached cuffs. Perfect fitting shirts; neatly finished. You've often paid \$1.00 for ones no better. No size, 15 or 15 1/2.

## Imported Soap Sale

We offer today a choice collection of fine toilet soaps at a very close price. The result of a lucky purchase. They are in boxes, worth 35c a box; 3 cakes in a box, and we shall sell them at 15c a box.

Jokey Club, Carnation and Eau de Espagnole odors.

Turn Over Collars 8c. They are all 15c values. Made of very fine lawn, hand-somely embroidered. There are over two dozen styles to choose from.

50c Pillow Tops 29c. All new arrivals.

Pillow tops with the backs sewed on ready for the cushion. Every pattern a new one. Some decidedly clever and novel designs among them.

50c Belts 27c. Black taffeta silk belts; very handsome; some in plain silk with gilt buckles; some in the Fritz Schill style; some with neat tucks.

## Grocery News

Today we place on sale some fine Waldorf-Fruit Salad made after recipe of one of the famous chefs of the Waldorf-Astoria hotel in New York.

It is a delicious concoction of fruits and salad and nuts flavored with the finest of olive oil, a salad that will create a desire for more the moment it is tasted. New today. Try some.

## \$6.00 For Stylish Hats

We picture some of them for you. Notice how ultra stylish the hats are; how correct in every detail. It's the selling of such elegant millinery at such moderate prices that makes this store the center of the biggest millinery business in Central California. There's no charge for beauty here; no reason why you should pay a cent more than necessary. Millinery is no more to this store than groceries or dry goods. The same small ratio of margin is asked.

Take these \$6 sale hats; they have the materials, style and good looks that are found in \$8 and \$9 hats.

They may be had in the large Gainsborough shapes, in the stylish small shapes, in the Peter Pan shape, and in the black velvet mushroom shape.

Trimmings of wings, grapes, ostrich tips, plumes, silks and velvets.

When you are in the store today ask to see these sale hats. You can not help being interested. You will quickly appreciate the fact that you are saving money when you purchase one.

## Of Interest to Mothers

### Boy's Waists 18c.

Stout percale shirt waists in light or dark colors; some in the Mother's friend style; most of them sold at 35c; all ages.

### Children's Drawers 25c.

A garment that is made of 35c materials; good, stout cambric muslin strongly and neatly sewed. Hemstitched ruffles, finished with clusters of tucks; a garment that will please critical mothers and one that is cheaper to buy here than to make.

### Trousers 50c.

Knee trousers for boys, made of all-wool chevots; in the serviceable shades of dark gray, brown and blue mixtures, reinforced seams, extra strong knees; all ages.

### \$7.50 Curtains \$4.85.

Among these are white or cream snow flaked French Madras curtains; 3 yards long and 54 inches wide; sheer and fine cloth, with a deep border of lattice work and heavily tasseled ends. There are others with silk cross stripes one to six inches wide and in a variety of pleasing color combinations. These curtains are used in the very best homes and are in extremely good taste.
